RECHARGE CHEMICAL

ULC CLASSIFIED UNIVERSAL DRY CHEMICAL

STEEL FIRE ULC Classified dry chemical is manufactured at our Canadian facility. Our powder meets the requirements of **CAN/ULC S 514 M88 Powder Specifications**. Our dry chemical is ULC listed for the following manufacturers:
Amerex, Diamond, Ansul, Flag, Badger, General, Buckeye, Pyrene-Chubb, Strike First, Ansul PK Wheeled Units (Model LR-K-350-0, LR-K-350-D, LT-LR-K-350-C, LT-LR-K-350-D).
For information on specific model numbers refer to ULC listing information.

Steel Fire "ABC" Dry Chemical

STEEL FIRE ULC Classified "ABC" Dry Chemical is a specially formulated siliconized mono-ammonium phosphate/sulfate base dry chemical. The resultant agent is free flowing, water repellant, and anti-caking for smooth discharge. Our **SUPER90** formula featuring 90% siliconized Mono-Ammonium Phosphate is our High Performance ABC dry chemical.

ABC Dry Chemical is used to fight fires in ordinary combustible materials (Class A) such as wood, cloth, paper, rubber, and many plastics as well as fires in flammable liquids, gases and greases (Class B) and fires involving electrical equipment (Class C). It is electrically non-conductive.

Steel Fire Regular "BC" and Purple-K "PK" Dry Chemical

STEEL FIRE ULC Classified Regular "BC" sodium bicarbonate based and **Purple-K "PK"** potassium bicarbonate based dry chemicals are specially formulated and manufactured for anti-caking, long discharge and smooth uninterrupted flow. The chemical is siliconized to be moisture repellant and provide minimum friction during discharge.

Regular "BC" and **Purple-K "PK"** chemical are used to fight fires in flammable liquids, gases, and greases (Class B) including such fires involving electrical equipment (Class C). Both agents are electrically non-conductive. Given its particular effectiveness on Class B fires, **Purple-K "PK"** has been the choice of oil, gas, chemical and utilities industries as the preferred fire-fighting agent.

RECHARGE CHEMICAL

OEM DRY CHEMICAL	
PART#	DESCRIPTION
AN53080	Ansul FORAY (ABC) Dry Chemical, Yellow Label, Pail
AN415788	Ansul Special FORAY (ABC) Dry Chemical, 45 lb. Pail
	(for Models AA05, AA10S, AA20)
AN9335	Ansul Purple-K Dry Chemical, 50lb. Pail
A545	Amerex Class D Powder, 50 lb. Pail
	(Sodium Chloride)

OEM WET CHEMICAL RECHARGE for a variety of Kitchen Systems and portable fire extinguisher types and models.	
PART#	DESCRIPTION
AX530	Amerex 6L (1.59 Gal) K-Class Recharge
AX660	Amerex 2.5 Gal K-Class Recharge
A2117	AR-AFFF foam recharge for 254, 250X
	(Replaces A502 and A504 Premix Charge)
430182AS	Ansul 6L PRX Wet Chemical
	For PIRANHA & K-Guard K01, K01-1
423320AS	Ansul 5 Gal PRX Wet Chemical
	For PIRANHA & K-Guard K01, K01-1
79372AS	Ansulex 3 Gal Wet Chemical
	For R-102 & K-Guard K01-2, K01-3
B23168	Badger AC-100 6L (1.59 Gal) K-Class Recharge
	For Badger WC-100, WC-250 and Kidde Pro Plus 100
BU600872	Buckeye 6 L K-Class Recharge
120032KR	4 Gal APC Wet Chemical
	For Badger Range Guard and Kidde WHDR Systems
120033KR	6 Gal APC Wet Chemical
	For Badger Range Guard and Kidde WHDR Systems
PC300	Pyrochem 3 Gal Wet Chemical
	For KITCHEN KNIGHT II & KITCHEN ONE K-Class Extgr
PC553176	Pyrochem 6 L (1.6 Gal) Wet Chemical
	For KITCHEN KNIGHT II & KITCHEN ONE K-Class Extgr
SF6LK	Strike First 6 L K-Class Recharge
AC40	Anti-Freeze Charge for Pressure Water Extgrs
	For 2.5 Gal PW Extinguishers (One AC40 per Extgr)

EXTINGUISHING SYSTEMS

Torrent Series Automatic Fire Extinguishers

Incontrol Systems' TORRENT Series of automatic clean agent fire extinguishers act fast to stop fires before they can spread and damage your assets. With discharge times of 10 seconds or less, installations benefit from fast response to the danger posed by fire.

Totally self-contained and fully automatic, the TORRENT fire extinguishers require no external power or connections, yet they maintain fire protection around the clock, delivering years of reliable service. Installation takes just minutes, and relocation is easily accomplished to suit changing fire protection needs.

- ULC Listed, Accepted by Canadian Coast Guard, US Coast Guard Approved (Manual pull station not listed)
- FM-200 / HFC227ea clean agent for effective fire protection
- On board pressure gauge for easy status checks
- Integrated heat detector (sprinkler bulb) reacts instantly to fire conditions
- Approved for use in occupied areas
- Suitable for Class A, B, & C hazards
- Simple installation and maintenance
- No residue – safe for sensitive equipment
- Self-contained – no external power necessary
- Mounting hardware included
- Accessory connections for pressure switch, discharge indicator, or manual operation
- Different temperature options for heat detection available, 135°F (57°C), 155°F (68°C), 175°F (79°C), 200°F (93°C)
- **Operating Temperature Range 32°F to +130°F (0°C to +54.4°C)**

Ordering Info: Specify the temperature option when ordering. For example, if you want a model SFS-06, NO pressure switch, 175°F (79°C) bulb. The part number is SFS-06-175-S.

ACCESSORIES
The remote manual control kit enables the automatic extinguisher to be manually controlled from a safe, remote location.
Two assemblies make up the remote manual control: Actuator Assembly, Pull Station and Cable Assembly. **(NOTE: The manual actuator is <u>NOT</u> UL/ULC/USCG listed.)**

FEATURES

- Protects engine rooms and machinery spaces up to 1500 cubic feet
- Pre-engineered, total flooding system
- The safest way to combat an engine room fire
- Automatic discharge at 175°F (79°C) with optional manual release
- With HFC-227ea – effective Halon replacement clean agent
- No water or powdery residue
- Includes powder coated mounting bracket and 2" L.E.D. panel light (#FBLKIT)
- 3-Year Limited Warranty
- Approved for class B fires

Panel Warning Light

This attractive 2" round escutcheon plate has an adhesive back for easy panel mounting.

The green warning L.E.D. provides constant monitoring of the system to comply with U.S. Coast Guard requirements for system approval. Standard with all CG2 and MA2 fire extinguishing systems.

PART#	DESCRIPTION
FBLKIT	Fire System Status Indicator Light w/Panel

Discharge Cable Kits

MA2 Series discharge cable for those who prefer a way to activate the system faster than the response time of the bulb head or for inspected vessels required to by US and Canadian Coast Guard regulations. The kit includes cable, escutcheon plate, pull handle, safety pin and safety tie.

NOTE: Discharge cable from 32 feet to 50 feet are available on special order. Minimum four (4) weeks delivery.

FIRE EXTINGUISHERS

MIX EXTINGUISHER BRANDS AND MODELS FOR BEST QUANTITY PRICING

Strike First ABC Multi-Purpose Extinguishers

Strike First's ULC Listed **ABC** extinguishers are built tough and easy to service. They provide effective protection against fires involving electrical equipment, Class A wood, paper, cloth and Class B flammable liquids.

- Steel cylinder complete with protective skirt
- Super durable polyester powder paint finish with superior corrosion resistance
- Universal valve body featuring the new pin style wall hook
- Stainless steel handles - with reinforced bottom handle

- GHS info integrated into label (replaces WHMIS in Canada)
- Oversized stainless steel pull pin with retaining strap for easier and faster activation.
- Temperature Range -65°F to 120°F (–54°C - 49°C)
- 6 Year Limited Warranty

Strike First Regular (BC) Extinguishers

Strike First's ULC Listed **BC** extinguishers are built tough and easy to service. They provide effective protection against fires involving electrical equipment and Class B flammable liquids.

- Steel cylinder complete with protective skirt
- Super durable polyester powder paint finish with superior corrosion resistance
- Waterproof stainless steel gauge
- Reinforced, full grip steel handles with polyester powder paint finish
- Oversized stainless steel pull pin with retaining strap for easier and faster activation
- Temperature Range -65°F to 120°F (–54°C - 49°C)
- 6 Year Limited Warranty

Amerex Class K (Kitchen) Extinguisher

Amerex's ULC Listed **Class K** wet chemical extinguishers are the best restaurant kitchen appliance hand portable fire extinguishers you can purchase. Each model has been tested and approved for the Class K listing by ULC specifically for restaurant kitchen hazards. They contain a special potassium acetate based agent. The recent trend to more efficient cooking appliances and use of vegetable based cooking oils dictates the use of a hand portable fire extinguisher with greater fire-fighting capacity and cooling effect to combat these very hot and difficult fires. They supplement existing cooking equipment automatic system protection for an extra margin of safety.

- 5 Year Limited Manufacturer's Warranty
- Polished Stainless Steel Cylinders
- All Stainless Steel Valve Construction
- Tested on Commercial Deep Fat Fryers to ANSI / UL Safe to use on Energized Electric Appliances
- Class 2A Rated to Meet Fire Code Occupancy Hazard Requirements
- Temperature Range +40°F to 120°F
- Large Loop Stainless Steel Pull Pin
- Swivel Connection on Hose Allows Nozzle to be Oriented for Proper Use
- Nozzle Grip Design with 45° Angle for Easy "Overhead" Application
- Agent Discharged as a Fine Mist Helps Prevent Grease Splash and Re-flash While Cooling the Appliance

Amerex Water Mist

WATER MIST is the ultimate extinguisher for Class A fires and where a potential Class C (electrical) hazard exists. The fine spray from the unique misting nozzle provides safety from electrical shock, greatly enhances the cooling and soaking characteristics of the agent and reduces scattering of burning materials. The **Amerex Water Mist** extinguishers **contain deionized water (sold separately)** making them the best extinguishers for protection of hospital environments, valuable books and documents, telecommunication facilities and "clean room" manufacturing facilities. The Amerex Water Mist extinguishers are easy to use, maintain, and service. **Safe to use in MRI facilities and on energized equipment.**

- Stainless Steel Cylinders
- Durable High Gloss Polyester Powder Paint
- All Metal Valve Construction
- Temperature Range +40°F to 120°F
- MRI SAFE - Nonmagnetic Construction Tested by an Independent Agency for use in MRI Facilities to 7 Tesla (including wall hanger bracket)
- Non-toxic - Causes no Respiratory Problems
- Uses Deionized Water Extinguishing Agent (sold separately)
- Sanitary White Paint Finish (easy to clean)
- Wand Provides Greatest Operator Safety

Amerex Class D Extinguishers

MODEL B570 contains a special blended Sodium Chloride (salt) based dry powder extinguishing agent. Metal fires involving magnesium, sodium, potassium and sodium-potassium alloys can be successfully extinguished with this extinguisher. There is data showing that zirconium, uranium, titanium, and powdered aluminum fires can be controlled and extinguished with this unique extinguisher.

Extinguishing Capacity Model B570X

- Magnesium Chips: 4 ft 2" and/or 6 lbs. of metal
- Sodium or Potassium Spill: 5 ft 2" and/or 5 lbs. of metal
- Sodium or Potassium Spill Depth Over ½": 3 ft 2" and or 6 lbs. of metal
- Sodium Potassium Alloy Spill: 3 ft 2" and/or 2 lbs. of metal

MODEL B571 contains a copper extinguishing agent specially developed by the U.S. Navy for fighting lithium and lithium alloy fires. The copper compound smothers the fire and provides an excellent heat sink for dissipating heat. Copper powder has been found to be superior to all other known fire extinguishing agents for lithium.

Extinguishing Capacity Model B571

- 4 ft 2" and/or 5 lbs. of lithium
- 6 Year Warranty
- Dependable Drawn Steel Cylinders
- Special corrosion resistant yellow (Class D) color coded paint finish
- All Metal Valve Construction
- Temperature Range -40°F to 120°F
- Unique "soft flow" extension applicator plus built in long range nozzle
- Large Loop Stainless Steel Pull Pin

Amerex Halotron Extinguishers

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. The Halotron™ I clean agent has been determined to be the most environmentally beneficial halocarbon agent on the market today that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential and a low global warming potential. Ideal applications for these extinguishers include: data centers, laboratories, manufacturing plants, general office areas, computer rooms, telecommunication facilities, clean rooms, control rooms, warehouses, military electronics, vehicles including classic autos, boats, engine compartments, aircraft ramps, onboard aircraft and in facilities that service aircraft and any facility where dry chemical extinguishers could cause unacceptable damage or contamination.

- 6 Year Limited Manufacturer's Warranty
- Dependable Drawn Steel Cylinders
- Durable High Gloss Polyester Powder Paint
- All Metal Valve Construction
- Temperature Range -40°F to 120°F
- EPA approved "Clean Agent" for Class A, Band C hazards
- Low GWP (Global Warming Potential)
- Low ODP (Ozone Depletion Potential)
- Short Atmospheric Lifetime
- Leaves No Residue
- Large Loop Pull Pin
- No Electrical Conductivity Back to the Operator
- No Thermal or Static Shock

Amerex Wheeled Stored Pressure Dry Chemical

These commercial stored pressure extinguishers are available in a choice of two sizes and three chemical options. The carriage design on both sizes provides cage type protection for the agent cylinder as well as a well-balanced platform for transportation and operation. The narrow width and easy rolling semi-pneumatic rubber tire wheels allow one-person movement through narrow aisles, doorways and in confined areas. Chemical and pressure is sealed in the agent cylinder, ready for instant actuation and is always protected from contamination. Stored pressure wheeled extinguishers are less expensive to purchase as well as easier and less costly to maintain and service.

- Brass Hose Fittings
- Quick Opening Valves
- Live Swivel on Discharge Valve
- Brass Valve – Chrome Plated on 125 lb. & 150 lb. Models

Amerex Direct Pressure Nitrogen Cylinder Operated Wheeled Dry Chemical

125 lb. ABC & Purple K and 150 lb. Regular Direct Pressure extinguishers utilize a 23 ft3 nitrogen cylinder with a "quick opening brass valve" to pressurize and completely discharge the agent cylinder. The compact size and 16" semi-pneumatic tires allow easy maneuvering and operation by one person, through narrow doorways and aisles. A 4" stainless steel fill opening with rugged chrome plated brass cap makes servicing easier. For large hazards choose the 300 lb. ABC or Purple K or 350 lb. Regular Direct Pressure extinguishers with a "quick opening" 55 ft3 nitrogen cylinder. They provide quality and economical fire protection, large volume capacity for extra high hazard areas with single person transport and operation. The 36" X 6" wide steel wheels make movement possible in sandy or soft soil.

Amerex Regulated Pressure Nitrogen Cylinder Operated Wheeled Dry Chemical

These 110 ft3 nitrogen cylinder operated models feature a pressure regulator and two wheel options. The older, traditional design allows for adequate pressure to assure a smooth, complete discharge of the dry chemical with pressure reserve for blowing down the discharge hose. Choose either the 16" semi-pneumatic rubber tire or 36" X 2½" steel wheels according to the area to be protected. Easy to transport and operate by one person.

⚙ ANSUL.   MIX EXTINGUISHER BRANDS AND MODELS FOR BEST QUANTITY PRICING

Ansul Sentry Dry Chemical Extinguishers

SENTRY dry chemical extinguishers are designed for protection of light and ordinary hazards. These compact and portable extinguishers are suited for both industrial and commercial/compliance fire protection needs. All extinguishers are designed to fit most wall mounted storage cabinets. Typical applications include light manufacturing, warehousing, restaurants, office buildings, shop areas, auto repair shops, paint process areas, apartment buildings, parking garages, aircraft servicing areas, material handling vehicles, and many others.

SENTRY Low Profile Model 05S (5 lb.) Stored Pressure Fire Extinguishers. The low profile models feature a reduced total height of 16¾ in. (425 mm) allowing placement in most of the popular compact extinguisher cabinets: CATO Chief 1055, Brooks Mark 1 Jr.

- Dependable Drawn Steel Cylinders
- Tough, glare-resistant, one-piece mylar nameplates
- Valve bodies are made from a durable extruded aluminum alloy
- Choice of **FORAY (ABC)**, **PLUS FIFTY (BC)** and **Purple-K** dry chemical agents to satisfy specific protection requirements

- Large, easy-to-read pressure gauge
- Durable powder coat paint finish for superior corrosion resistance and resistance to blistering, cracking, fading and chipping
- 6 Year Limited Warranty
- Temperature Range -65°F to 120°F (–54°C - 49°C)

ANSUL MIX EXTINGUISHER BRANDS AND MODELS FOR BEST QUANTITY PRICING

Ansul Sentry High Flow Extinguishers

SENTRY High-Flow, Stored-Pressure Fire Extinguishers are designed specifically for commercial, compliance markets. This portable fire extinguisher provides cost-effective, high performing fire suppression. The quick discharge rate enables the dry chemical agent to reach fires faster, providing increased firefighting capability as compared to a standard fire extinguisher.

Available in 10-pound and 20-pound models with standard or corrosion resistant coatings, the high-flow, stored-pressure fire extinguishers are designed to meet the requirements of NFPA 10 (Standard for Portable Fire Extinguishers) Section 5.5.1.1 **for pressurized flammable liquids, 3D and pressurized gas fires.**

Applications include propane filling and storage locations, gas/fuel stations, construction sites, maintenance facilities, hazardous material cabinets, small paint booths, marinas, salvage/recycling centers and warehouse/storage facilities.

- 240 psi (16.6 bar) operating pressure for maximum
- Dependable Drawn Steel Cylinders
- Tough, glare-resistant, one-piece mylar nameplates with distinct "High-Flow" designation
- Valve bodies are made from a durable extruded aluminum alloy
- Choice of **FORAY (ABC)** and **Purple-K** dry chemical agents to satisfy specific protection requirements

- Large, easy-to-read pressure gauge
- Durable powder coat paint finish for superior corrosion resistance and resistance to blistering, cracking, fading and chipping
- 6 Year Limited Warranty
- **Corrosion-Resistant (CR) models available**
- Temperature Range -65°F to 120°F (–54°C - 49°C)

ANSUL **MIX EXTINGUISHER BRANDS AND MODELS FOR BEST QUANTITY PRICING**

Ansul Red Line Cartridge Operated Extinguishers

RED LINE dry chemical extinguishers are designed for the protection of ordinary and high risk hazards. This hand portable extinguisher is used in industries where the occurrence or possibility of fire is high. The RED LINE extinguisher has set the standard for reliable fire protection in many industries and applications including refining, petrochemical, oil and natural gas production, mining, transportation, utilities, metal processing, paint process areas, welding areas, material storage areas and many others.

- Rugged, durable, reliable fire protection
- Choice of **FORAY (ABC)**, **PLUS FIFTY (BC)** and **Purple-K** dry chemical agents to satisfy specific protection requirements
- Maintenance checks can be easily made on every moving part
- Field rechargeable
- Standard models are equipped with CO2 cartridges and receivers which are listed and approved for operation in environments with temperatures between –40°F to 120°F (–40°C to 48.8°C).

- Indicator cap comes standard to visually show whether the unit is pressurized
- Twelve-year limited warranty
- Four sizes (5, 10, 20 and 30) available with many model options to suit your needs including Low Temp (Nitrogen Cartridge allowing unit to operate to –65°F (–54°C), corrosion resistant, high flow, metal cartridge guard

Ansul CO2 Extinguishers

Every year, a variety of incidents lead to fires that cost businesses their critical assets. **SENTRY** carbon dioxide extinguishers provide the power to respond quickly and effectively by design to protect against Class B (flammable liquids and gases) and Class C (energized electrical equipment) fires. These extinguishers are well suited for indoor use in furnace rooms, printing presses, pump rooms, electrical power panels, and laboratories where winds and drafts do not affect discharge.

SENTRY CO2 extinguishers are available in lightweight aluminum shells and in capacities ranging from 5 lb to 20 lb. These extinguishers may be used indoors where winds and drafts do not affect discharge or where a clean extinguishing agent is required. The non-corrosive, non-conductive, clean extinguishing agent leaves no residue to clean up. Caution is advised in small, enclosed spaces as CO2 is a clear gas which cools and displaces oxygen.

- Non-corrosive, non-conductive, clean extinguishing agent leaves no residue
- Lightweight aluminum shell
- Durable powder coat paint finish for superior corrosion resistance and resistance to blistering, cracking, fading and chipping
- Operating temperature range is –22°F to 120°F (–30°C to 49°C)
- 6 year limited warranty

ANSUL

Ansul Wheeled CO2

RED LINE Carbon Dioxide Wheeled Fire Extinguishers are designed to protect areas where Class B (flammable liquids and gases) or Class C (energized electrical equipment) fires could occur. They may be used indoors where winds and drafts do not affect discharge or where a clean extinguishing agent is required. These extinguishers provide maximum protection in settings such as aircraft hangars, paint spray booths, quench tanks, and metal tube manufacturing.

Carbon dioxide is a non-corrosive, non-damaging extinguishing agent that leaves no residue after a fire. Carbon dioxide provides its own pressure for discharge, and because it is a gas, it will penetrate and spread to all parts of a hazard. Because carbon dioxide displaces oxygen, appropriate safety measures must be taken to evacuate enclosed areas where discharged.

- Non-corrosive, non-conductive, clean extinguishing agent leaves no residue
- Upright positive on-off operation utilizing the squeeze grip activation, precision machined, chrome plated, forged valves, DOT/TC approved steel cylinder mounted to a wheeled carriage for ease of mobility
- Available in 50 lb (23 kg) and 100 lb (45 kg) models
- Operating temperature range is –22°F to 120°F (–30°C to 49°C)
- One-person operation
- Large 16 in. (41 cm) semi-pneumatic rubber wheels
- 6 year limited warranty

Ansul Class K (Kitchen) Extinguisher

We are pleased to announce that the **ANSUL K-GUARD** Fire Extinguisher is now **2-A: K rated**. Choose ANSUL K-GUARD as your preferred restaurant fire extinguisher and meet NFPA 10 solid fuel cooking requirements for a firebox size of 5 ft3 or less. This upgraded 2-A rating also means compliance with NFPA 10 fire extinguisher size and placement for Class A Hazards which means you can protect the kitchen area without additional extinguishers needed.

Rated for Class K fires, K-GUARD Fire Extinguishers are designed specifically to fight some of the toughest fires—hot grease, cooking oil and fat fires in the kitchens and food-prep areas of restaurants, convenience stores, food courts, hospitals, school cafeterias and other facilities. Typical appliances that benefit from K-GUARD protection include fryers, griddles, ranges, broilers, char-broilers, woks and more.

K-GUARD extinguishers contain ANSULEX Low pH Liquid Fire Suppressant, a specially formulated, aqueous solution. In addition to knocking down the flame and forming a vapor-securing blanket, ANSULEX agent provides a cooling effect that aids in extinguishment and securement of hot cooking fuels. (ANSUL Low pH agent is used in both the K-GUARD extinguishers and R-102 restaurant fire suppression systems.)

- Wide angle, soft discharge spray pattern
- Stainless steel bourdon tube gauge
- UL/ULC rated 2-A:K
- Factory filled and pressurized
- Stainless steel pick-up tube and strainer
- Contains 1.6 Gallons (6 L) ANSULEX Low pH agent
- Operating Temperature Range 20°F to 120°F (–29°C to 49°C)

Ansul Cleanguard FE-36 Extinguishers

CLEANGUARD Clean Agent Extinguishers are designed for the protection of commercial and industrial facilities that typically contain sensitive or irreplaceable equipment and materials that could be damaged or destroyed by water, foam, dry chemical, or carbon dioxide. Offering superior performance, CLEANGUARD extinguishers are electrically nonconductive, environmentally friendly, and extremely low in toxicity.

CLEANGUARD extinguishers are ideal for computer centers, data/document storage areas, communications facilities, control rooms, electronics manufacturing, laboratories, museums, art galleries, and more. Rated for Class A, B, and C fires, the extinguisher agent leaves no residue, requires no cleanup after discharge, and will not cause collateral damage to materials, equipment, and facilities.

MODEL FE13NM is tested by Magnetic Resonance Safety Testing Services and shown to be MR Conditional to 3.0 tesla. The extinguisher can be mounted within the **MRI room**.

- Dependable Drawn Steel Cylinders
- Tough, glare-resistant, one-piece mylar nameplates
- Valve bodies are made from a durable extruded aluminum alloy which has been black anodized for additional corrosion resistance
- Large, colour coded easy-to-read pressure gauge
- Durable powder coat paint finish for superior corrosion resistance and resistance to blistering, cracking, fading and chipping

- No clean-up/no residue
- 6 Year Limited Warranty
- Temperature Range –40°F to 120°F (–40°C to 49°C)
- Model FE13NM tested and approved for use in MRI Facilities to 3.0 Tesla (MR Conditional stainless steel shell and MR Conditional valve, hose and nozzle)

ANSUL®

Ansul Direct Pressure Nitrogen Cylinder Operated Wheeled Dry Chemical

RED LINE <u>MODEL D</u> **Wheeled Fire Extinguishers** are manufactured to provide protection for hazardous areas where the potential exists for large fires. They can be strategically located to provide maximum protection for a wide variety of hazards, while taking up a minimum of space, and requiring only one trained person for operation.

These extinguishers are available with three types of ANSUL dry chemical suppressing agents giving them the versatility to protect many types of fire hazards.

The wheeled extinguisher is completely self-contained. An attached nitrogen cylinder is the only pressure source required to completely expel the fire suppressing agent. The pressure remaining in the tank after operation is sufficient for cleaning dry chemical from the discharge hose.

Some typical applications include paint spray booths, dip and quench tanks, offshore platforms, loading racks, fuel storage areas, airports, and heavy manufacturing operations.

- Listed by Underwriters Laboratories of Canada (ULC)
- Factory Mutual (FM) and United States Coast Guard (USCG) approved
- Three ANSUL® dry chemical suppressing agents available: PLUS-FIFTY C, FORAY or Purple-K.
- No pressure regulator required, reducing maintenance costs and producing smooth agent flow
- Easy pressurization by turning the nitrogen cylinder hand valve
- Simple operation provided by discharge nozzle with two position ball valve
- Aluminum nozzle barrel provides a solid, round agent stream
- Indicator fill cap pops up red stem when unit is pressurized

- Standard models are listed and approved for operation in environments with temperatures between –40°F to 120°F (–40°C to 48.8°C) * Options: long range nozzle, quick-opening nitrogen cylinder valve, wide wheels, rubber coated tire, low temperature ULC models allowing unit to operate to –65°F (–54°C), and 100 ft (30 m) hose on most models
- Six-year limited warranty

EXTINGUISHER COVERS CONTINUED

Vinyl Elastic Back Fire Extinguisher Covers

Elastic Back Fire Extinguisher Covers with pull bottom strap for easy removal and bottom grommet to allow water to escape. These covers feature an elastic "shower cap" style back with bottom pull tab and water draining grommet. The elastic back allows you to stretch the cover over the extinguisher. The elastic band keeps the cover secure to the extinguisher and helps to prevent blowing off in wind. Available in English and French. English covers are stencilled "FIRE" and French are pictorial only for 2.5 and 5 lb. cover and stencilled "BOYAU D'INCENDIE" for the 10 and 20 lb. covers. Fluorescent red. Available with clear window or without.

EXTINGUISHER CABINETS AND STANDS

MARK

Brooks Mark Series Extinguisher Cabinets and Accessories

Brooks' **MARK SERIES FIRE EXTINGUISHER CABINETS** better fit today's extinguisher sizes. Cabinets feature injection molded ABS plastic construction, so they are dent-, rust-, and corrosion-proof. Each cabinet comes with a brass lock, a plastic cover, and a screen-printed pictogram on the side. With no glass to break, there is no breaker bar to lose. Because they are light and nest easily together freight chargers are a fraction of what metal cabinets can cost.

Choose from three sizes: **Mark I Jr. Cabinets** for extinguishers with a maximum height of 16¾"; **Mark II Jr. Cabinets**, 20"; and **Mark II Cabinets**, 24".

Note: The Mark II will not hold a 20 lb. extinguisher.

WARRIOR

Cato Warrior Fire Extinguisher Cabinet and Accessories

WARRIOR FIRE EXRTINGUISHER CABINETS, manufactured by Cato, Inc. with cabinet body injection molded of linear, high density red or white virgin high-impact polystyrene of .110 wall thickness with ultra-violet inhibitors and high-impact crystal polystyrene .100 wall thickness one-piece cover. The design allows for natural ventilation and pitched drainage. The construction of the cabinets means they are rust and dent proof and cheaper to ship than metal cabinets. Each cabinet features a locking seal, two-piece construction and no breaker bar to replace.

FireTech ABS Cabinets

The **FireTech™ ABS EXTINGUISHER CABINET** protects an extinguishers or life safety equipment from the harshest of environments. Ideal for both extinguisher, fire blankets and safety equipment use. The clear door allows easy inspection, while the door-swing preference (left or right) and gasket provides long-term weather protection. A quick-release catch ensures rapid access to what is inside too.

- Clear polycarbonate front with red ABS back
- Accommodates stored pressure dry chemical and clean agent extinguishers, up to 20 lb
- Door seal designed for long-term weather protection

STANDS

FireTech™ Portable Extinguisher Cabinet & Stands

These cabinet and stand kits solve the problem of locating fire extinguishers on jobsites, project areas, and in remote locations. Constructed from rust/fade-proof materials, that meet OSHA requirements, these cabinet/stand combos come with handles for convenient carry. In addition, they come with scored break-fronts and cylinder locks. Other features include a heavy-duty rubber stand base, informational decals, and stackable storage/transport. White/Red. **NOTE: Extinguisher sold separately.**

STANDS CONTINUED

Make moving from jobsite to jobsite easy with this portable **ECONOMY FIRE EXTINGUISHER STAND**. It holds a 5, 10, or 20 lb dry chemical extinguisher and is ideal for wherever a fire extinguisher is required but cannot be permanently mounted. Its 16" x 16" base features a molded-in handle for ease of movement and a large 2½" fill hole for the addition of sand (up to 35 lb) to weight the base. The heavy-duty upright attaches easily to base without the use of tools. Constructed from red powder coated steel and predrilled for a fire extinguisher wall hook. For use on construction sites, exhibit halls, workshops, fairs and more. **NOTE: Extinguisher, sand and wall hook are not included.**

CATO CUSTOMIZER PANELS

Always have a replacement front for an extinguisher cabinet on hand that will fit whatever you may find in the field. Save time and money by being able to replace on site without the need for expensive custom made fronts and the time it takes to make and get them. These safe, long-lasting, UV-resistant acrylic panels will fit most CATO Chief cabinets, but, if needed, can be trimmed to fit most other cabinets as well.

1. Measure the size of the cabinet break glass window slot.
2. Carefully remove the blue film backing. Place panel carefully on a flat, clean surface and mark the scores to be trimmed.
3. Run a box cutter or similar tool lightly along the score you want to trim. Do this two to three times.
4. Place a pair of needle nose pliers or your hands on the outside edge of the score you want to trim and break off the unneeded portion.

CLASSIC

Acrylic Break Front

Grid pattern scored acrylic viewing panel. Grid pattern increases chances of breakage over "X" scored fronts. The greatest diameter of the extinguisher is in the middle of the cabinet where the lines of the "X" intersect. Individuals tend to strike the panel here. If the extinguisher rests against the panel it may be harder or take longer to break. The grid pattern removes this visual cue so that the extinguisher can be potentially accessed faster.

LOCKS

LAMINATED PADLOCK, from **Master Lock**®, features a four-pin cylinder nickel-plated steel body and hardened steel shackle. Shackle is ¼" thick with an inside measure ⅞" x ¹³⁄₁₆". All locks are keyed differently. Ideal for group lock box and high-security applications.

PART#	DESCRIPTION
L40	Laminated Padlock, ⅞" Shackle

L40

Corrosion-resistant **BASIC PADLOCK** features an all brass shackle, making it ideal for cabinets and other security requirements where economy and keyed-alike convenience is essential. ⅝" Shackle.

PART#	DESCRIPTION
M12L	Brass Padlock Keyed Alike, ⅝" Shackle

M12L

MASTER LOCK® is a name synonymous with top-quality padlocks. The keyed-alike **BREAKAWAY STEEL PADLOCK** has a 1¾"-wide laminated steel body for superior strength and comes with two keys, a steel shackle for strong cut resistance, and a warded locking mechanism that helps minimize jamming from foreign matter, like dirt and grime. And it's rustproof for extended wear.

PART#	DESCRIPTION
ML500KA	Keyed-Alike Breakaway Steel Padlock, ¹³⁄₁₆" Shackle

ML500KA

BREAKAWAY BRASS PADLOCK is for securing cabinets and other equipment until needed in an emergency. Designed to be opened with a key or broken away. ⅞" Shackle.

PART#	DESCRIPTION
SBL66	Breakaway Brass Padlock, ⅞" Shackle

SBL66

Single-use **PLASTIC PADLOCKS** must be cut or broken away. Inside shackle height is ¾". Red.

PART#	DESCRIPTION
PPL	Single Use Plastic Padlock, Red

PPL

LOCKS CONTINUED

AMERICAN LOCK® ALUMINUM PADLOCKS are spark and corrosion resistant, keyed differently with five-pin re-keyable cylinders, and case-hardened boron alloy steel shackles. Inside shackle measures 1½"H or 3"H x ¾" W.

LOCK BOXES

Keep track of keys with this Key Box, from Brooks. It's made of durable ABS plastic in a two-piece design that allows for easier access in an emergency. The polystyrene cover snaps right into place. Measures 4¼" x 1¼". Red.

PART#	DESCRIPTION
BKB	ABS Key Box "Break Glass For Key"
KBRC	Replacement Plastic Cover (for BKB)

BKB   KBRC

CABINET ALARMS

BASIC CABINET ALARMS for all fire extinguisher cabinets sound off with a 105 dB (measured at 1 foot) alarm when the extinguisher is removed. They are self-adhesive and install in seconds. Measures 2¾"H x 2¼"W x 1"D. **9V Battery not included**.

PART#	DESCRIPTION	W	H	D
CFAR	Cabinet Alarm, Red	2¾"	2½"	1"
CFAW	Cabinet Alarm, White	2¾"	2½"	1"

CFAR / CFAW

STI®'S FIRE EXTINGUISHER THEFT STOPPER helps stop theft, vandalism or misuse of fire extinguishers yet leaves the extinguisher accessible for emergencies and does not interfere with fire fighting in any way. If the protected fire extinguisher is moved from its normal position, the device emits a 105 dB piercing alarm. Also, the highly visible stop sign design and the words "STOP, EMERGENCY USE ONLY" discourages wrongful use. The device is easy to install and a deactivation cable is supplied for ease in servicing the extinguisher. **9V battery is included.**

PART#	DESCRIPTION	W	H	D
STI6200	Fire Extinguisher Theft Stopper	5⅜"	5⅜"	2"

STI6200

STI®'S MINI THEFT STOPPER CABINET ALARM is an inexpensive yet highly effective way to protect fire extinguishers and a wide range of equipment such as fire hoses, sprinkler shutoff valves and medicine cabinets from theft. The device is compact, highly effective and extremely versatile. It does not interfere with fire fighting or use of the protected item in any way. When used as a cabinet alarm, Mini Theft Stopper (STI6254), is mounted next to the door or in the cabinet. The reed switch unit is mounted on the door jam and the matching magnet is mounted on the door across from the reed switch. When the protected cabinet door is opened the device sounds a 105dB warning horn.

PART#	DESCRIPTION	W	H	D
STI6254	Mini Theft Stopper Cabinet Alarm	3½"	3½"	1"

FIRE HOSE NOZZLES

POLYCARBONATE FIRE HOSE NOZZLES

High Impact Polycarbonate Nozzles are an economical alternative to the more expensive brass models and come with the same array of spray patterns – straight stream to fog. Ideal for locations where brass theft is a concern. 1½" nozzles are ULC listed with a maximum rated flow of 78 gallons per minute at 100 PSI (wide open). Molded in red.

1", 2" and 2½" nozzles are not ULC listed. 1" nozzle has a maximum rated flow of 30 gallons per minute at 100 PSI (wide open). 2" and 2½" have a flow rate of 150 gallons per minute (US) at 100 PSI.

Not to be used for wash down.

WASHDOWN HOSE

MERCEDES TEXTILES LIMITED

TRYME® Wash Down Hose

TRYME® Wash Down Hose is a premium synthetic double jacket hose. Designed with black polyurethane outer jacket for industrial protective applications, in chemical and petroleum environments, construction sites and general industrial use. Light weight, very high abrasion resistance and long service life. Made in Canada.

- Black polyurethane covered jacket
- Tough and ready for action and light in weight
- Unique Mertex® lining

- Premium all synthetic double jacket
- Resistant to most chemicals, petrol products, ozone and U.V. exposure, hydrolysis, and rot and mildew

- Combines the advantages of covered single jacket hose with the hydrostatic superiority of double jacket hose

HOSE HANGERS, RACKS, REELS AND TRAYS

These **FireTech™ HOSE HANGERS** are constructed of aluminum alloy and conveniently accommodate 100' of lined or unlined hose, up to 2½". The top shoulder is spring loaded so that water pressure or a single pull is sufficient to release the hose. It also stores hose close to walls or columns to minimize damage as well as allowing for fewer bends in the hose, prolonging its life. Mounting instructions included.

- Hose instantly releases with a single pull
- Keeps hose close to walls or columns, minimizing damage from forklifts, etc.
- Fewer bends and larger radiuses prolong life of hose
- Low cost and easy to install

PART#	DESCRIPTION
THH	Hose Hanger for 1½" to 2½" RH, SJ or DJ Hose

THH

Hanger Spacing:

Hose Length	Total Loops of Hose		
	2	3	4
50'	12'	8'	6'
75'	n/a	12'	9'
100'	n/a	n/a	12'
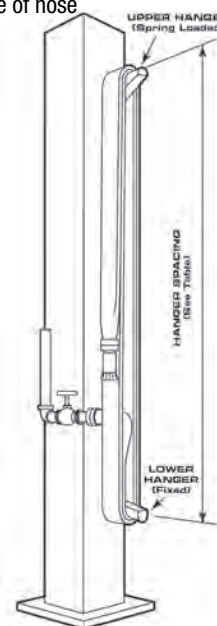

RED ENAMELED STEEL PIN RACKS with movable pins. The automatic release mechanism keeps water from flowing into the hose while the water supply valve is opened, until the last fold is removed. This unit is ULC Listed and FM Approved.

- Red pin rack comes with Fog nozzle clip
- Includes 23 pins to accommodate 50 to 100 feet of rack hose

PART#	DESCRIPTION

SPRINKLER ACCESSORIES AND STANPIPE EQUIPMENT

SPRINKLER GAUGES

SPRINKLER GAUGES are manufactured to exact standards, with only the finest materials, for maximum performance year in and year out. Designed for use on wet or dry sprinkler systems. UL listed and FM approved. SG1 is used in a dry system on the sprinkler head side of the control valve to accurately monitor line air pressure, with the ability to accept water pressure up to 250 psi (upon system activation). The SG2 is used on the water supply side of the sprinkler system to show available source pressure. The SG3 accommodates both air and water sides, up to 300 psi.

Plastic Backed GAUGES (3½")

PART#	DESCRIPTION
SG1	Air/Water/Retard Gauge, 0-80/250 psi
SG2	Water Gauge, 0-300 psi
SG3	Air/Water Gauge, 0-300 psi

SG1   SG2   SG3

Sprinkler Gauge Installation Labels help your customers comply with the AHJ by showing that sprinkler gauges have been tested/replaced within five years (per NFPA 25). They include spaces to record the installation date (different from the manufacturer date) and the date to test/replace the gauge. Roll/300.

VALVE TAMPER SEALS

The **HEAVY-DUTY VALVE TAMPER SEALS** are both deterrents and indicators of the unauthorized opening or closing of the sprinkler system valves. They meet the installation requirements of NFPA 13 and inspection requirements of NFPA 25 for sprinkler systems too. (Attach seals to valves in a manner that the valves cannot be operated without breaking the seals.) Each seal is stamped with a 7-digit serial number that can be recorded to show who performed the installation, inspection, or maintenance. IMPRINT SEAL is available with 3-lines, 8 characters per line. Minimum 5000. Matted in strips of 10 for ease-of use. Sold in boxes of 1000.
NOTE: When seals are used, valves should be inspected weekly.

FIRE SPRINKLER MONITORING

ALARM PRESSURE SWITCHES

System Sensor EPSA10 Series

System Sensor **EPSA10 Series** field-adjustable pressure switches are designed for use in wet, dry, deluge and pre-action automatic sprinkler systems to indicate a discharge from a sprinkler.

PART#	DESCRIPTION
EPSA10-1P	Alarm Pressure Switch, One SPDT, Plastic Fitting
EPSA10-2P	Alarm Pressure Switch, Two SPDT, Plastic Fitting

EPSA10-1P

System Sensor EPSA40 Series

System Sensor **EPSA40 Series** supervisory field-adjustable pressure switches are intended for dry pipe systems or pressure tanks and water supplies of automatic water control valves. This model offers a choice of initiating low or high/low pressure monitoring alarms, in a variety of pressure ranges.

PART#	DESCRIPTION
EPSA40-1P	Low Pressure Supervisory Switch, One SPDT, 10–100 PSI - Plastic Fitting
EPSA40-2P	High/Low Pressure Supervisory Switch, Two SPDT, 10–100 PSI - Plastic Fitting

System Sensor EPSA120 Series

System Sensor **EPSA120 Series** supervisory field-adjustable pressure switches are intended for dry pipe systems or pressure tanks and water supplies of automatic water control valves. This model offers a choice of initiating low or high/low pressure monitoring alarms, in a variety of pressure ranges.

PART#	DESCRIPTION
EPSA120-1P	Low pressure supervisory switch, one SPDT, 10–200 PSI
EPSA120-2P	High/Low pressure supervisory switch, two SPDT, 10–200 PSI

SUPERVISORY SWITCHES

System Sensor Supervisory Switches

System Sensor's electric supervisory switches are used to monitor the open position of Outside Screw and Yoke (OS&Y) type gate valves, post indicator and butterfly control valves (PIBV2A) and other type of valves. System Sensor's PSP1A plug-in switch is a special application supervisory switch designed for applications where no other type of listed valve supervisory switch can be used. Each feature a NEMA 3R-rated enclosure that is also tamper resistant. ULC listed and FM approved.

WATERFLOW DETECTORS

System Sensor WFDNA Series

The WFDNA Series waterflow detectors from System Sensor consists of a rugged, NEMA 4-rated enclosure that is more damage resistant than previous metal designs. The waterflow detector is designed for both indoor and outdoor use, with the widest available temperature range, from 0°C to 66°C (32°F to 150°F). The System Sensor WFDNA series is compatible with schedule 7 through 40 steel pipe, for sizes 2 in. through 4 in. and compatible with schedule 10 through 40 steel pipe, sizes 6 in. through 8 in., and can be mounted in a vertical or horizontal position.

LOCKOUT TAGOUT

Lockout Tags

LOCKOUT TAGS measure 3" x 5¾" and are made of rugged, stain and mildew-resistant .020 styrene. Grommets are standard on tags for greater strength. All tags have the "DANGER" heading, striped red border, and come with zip ties. The textured surface allows you to write your name and other important information easily. Sold in packages of 25.

Lockout Hasps

Safety **LOCKOUT HASPS** provide a safe, proven method of locking out energy sources. Two models are available: the red heavy-duty nylon style or the aluminum scissors type. The nylon model is flexible, unbreakable, dielectric, and heat and cold resistant. The aluminum models have rubber-dipped handles and are available with two different jaw-opening sizes. Both models accommodate up to six padlocks.

PART#	DESCRIPTION	MATERIAL
MS01	Lockout Hasp	Nylon
OG80	Lockout Hasp, 1"	Aluminum
OG82	Lockout Hasp, 1½"	Aluminum

MS01   OG80

Rotating Gate Valve Lockouts

Ideal for tight spaces and insulated pipes, **MASTER LOCK® ROTATING GATE VALVE LOCKOUTS** come in various diameters to fit over different size valve handles. They can be locked to protect against accidental opening and feature tough yet lightweight dielectric ZENEX™ thermoplastic construction, which easily withstands chemicals and temperature extremes. Their unique, patented rotating design is also what makes it easy to fit them in tight spaces. Hi-vis safety labels come in English, French, and Spanish, and the center knockout can be removed to fit over a rising stem gate valve.

PART#	DESCRIPTION
ML480	Gate Valve Lockout 1"-3" Dia.
ML481	Gate Valve Lockout 2"-5" Dia.
ML482	Gate Valve Lockout 4"-6½" Dia.

ML480   ML481   ML482

Pressurized Gas Valve Lockout

The **MASTER LOCK® PRESSURIZED GAS VALVE LOCKOUT** fits most pressurized gas valve handles up to 3" in diameter. This patented product is designed to work with the valve guard in place too. It also works with multiple lockout hasps and accepts any **MASTER LOCK®** or **AMERICAN LOCK®** safety padlocks.

PART#	DESCRIPTION
MLS3910	Pressurized Gas Valve Lockout (Lock Not Included)

MLS3910

Circuit Breaker Lockouts

Circuit Breaker Lockouts are made of tough, molded plastic. Available to fit single and double pole breakers. **CB03** can be used with all single pole breakers without the through hole. **CB01** fits all Square-D-style and many other popular breakers with a padlock hole through the breaker toggle. The smaller **CB04** can be used where space is a concern. **CB02** fits ITE and Westinghouse-style double pole breakers.

PART#	DESCRIPTION	APPLICATION	STYLE	MATERIAL
CB03	Single Pole Lockout	Fits single pole breakers without the through hole	For Toggles w/out Hole	Plastic
CB01	Single Pole Lockout	Fits all Square-D-style and many other popular breakers with a padlock hole through the breaker toggle	For Toggles w/ Hole	Plastic

LOCKS

LAMINATED PADLOCK, from **Master Lock®**, features a four-pin cylinder nickel-plated steel body and hardened steel shackle. Shackle is ¼" thick with an inside measure ⅞" x ¹³⁄₁₆". All locks are keyed differently. Ideal for group lock box and high-security applications.

PART#	DESCRIPTION
L40	Laminated Padlock, ⅞" Shackle

L40

Corrosion-resistant **BASIC PADLOCK** features an all brass shackle, making it ideal for cabinets and other security requirements where economy and keyed-alike convenience is essential. ⅝" Shackle.

PART#	DESCRIPTION
M12L	Brass Padlock Keyed Alike, ⅝" Shackle

M12L

MASTER LOCK® is a name synonymous with top-quality padlocks. The keyed-alike **BREAKAWAY STEEL PADLOCK** has a 1¾"-wide laminated steel body for superior strength and comes with two keys, a steel shackle for strong cut resistance, and a warded locking mechanism that helps minimize jamming from foreign matter, like dirt and grime. And it's rustproof for extended wear.

PART#	DESCRIPTION
ML500KA	Keyed-Alike Breakaway Steel Padlock, ¹³⁄₁₆" Shackle

ML500KA

BREAKAWAY BRASS PADLOCK is for securing cabinets and other equipment until needed in an emergency. Designed to be opened with a key or broken away. ⅞" Shackle.

PART#	DESCRIPTION
SBL66	Breakaway Brass Padlock, ⅞" Shackle

SBL66

Single-use **PLASTIC PADLOCKS** must be cut or broken away. Inside shackle height is ¾". Red.

PART#	DESCRIPTION

WATER·JEL TECHNOLOGIES EMERGENCY BURN CARE

WATER-JEL® FIRE BLANKETS & WRAPS are one-step systems for emergency first aid on a burn victim. They put out the fire, stop burn progression and cool the skin, relieve pain and protect the burn area from contamination. They consist of a scientifically formulated cooling gel and a special carrier. The 100% worsted wool material is soaked in a water-based/water-soluble, bacteriostatic and biodegradable gel. Can be placed directly over clothing and won't stick to burn injuries. They can be used to extinguish flames and smoldering clothes or dangerous white phosphorous. Available in foil pouch or easily identifiable plastic container with handle for convenient transport.
SHELF LIFE: 5 years from date of manufacture.

PART#	DESCRIPTION
C726004WJ	5' x 6' Fire Blanket in Canister

C726004WJ

P726004WJ

WATER-JEL® BURN DRESSINGS provide fast, one-step relief for emergency first aid when someone has been burned. The dressings stop burn progression and cool the skin, relieve pain and protect against airborne contamination. Burn Dressings are made with a scientifically formulated cooling gel and utilize a medical-grade nonwoven pad that is non-adherent, so they will not stick to burn injuries. **SHELF LIFE:** 5 years from date of manufacture.

The 12" x 16" Burn Dressing is used widely by EMS and firefighters. Large enough to protect the entire face, ears, neck and part of the head. With nose, mouth and eye slits and eyelid flaps.

BLANKETS, LADDERS AND FIRE RETARDANT

FIRE BLANKETS AND CABINETS

Our 3-Ply Fiberglass Blanket comes in a red slim line cabinet complete with English/French instruction labels and pull straps for quick withdrawal. For smothering and extinguishing fires in Hospitals, Schools, Homes, and Kitchens. **ONE-TIME USE ONLY.**

- Made of 3 Ply Material – 2 Layers of Woven Glass Fiber, 1 Layer of Fire Retardant Film
- Independently tested – EN1869: 1997
- Red Slim Pack Thermoplastic Container
- Blanket size 72" (182 cm) x 48" (122 cm)
- Cabinet measures 16⅝"H x 6¼"W x 1½"D
- Pull straps for quick blanket withdrawal
- Bilingual Operating Instructions

PART#	DESCRIPTION
FB64	Fiberglass Fire Blanket and Cabinet

FB64

WOOL BLANKET and **CABINET** made of all steel construction. The wool blanket attaches to roller allowing a person to grab the attached arm loop and wrap themselves in the blanket in one continuous motion. The wool blanket measures 62" (203 cm) x 80" (157.5 cm) and is treated for fire retardancy. The steel cabinet measures 6½"W x 68"H x 4"D.

INSPECTA-SHIELD FIRE RETARDANT

Inspecta-Shield™ **FIRE RETARDANT** is a Class A fire retardant for fibers, lumber, and wood materials. Pre-mixed, easy to apply, non-toxic, non-allergenic, colorless, odorless (when dried), durable, and UV stable. UL classified and approved by the CA State Fire Marshal. Works by slowing horizontal and vertical flame spread. Does not prevent charring, but treated items will not support ignition. Directions are included. Not recommended for outdoor use.
NOTE: UL Letter of Certification can be granted up to two years after the date of manufacture.

PLUNGER DISPENSING CANS

Justrite Plunger Cans

Dispense flammable liquids and solvents safely, without waste or exposure. Made of chemically resistant Ryton® and brass, the pump base is designed to leave less liquid in the bottom before having to refill.

Pushing down on the pump assembly fills the upper pan with liquid. Surplus liquid drains safely back into reservoir. The perforated upper pan serves as a flame arrester. Top rim has molded edge protector for smooth, trouble-free moistening.

CIGARETTE BUTT RECEPTACLES

Made of flame-retardant and sturdy polyethylene, this low maintenance smoker's friend won't rust, dent or crack. Innovative self-extinguishing design safely collects unsightly cigarette litter and reduces the risk of fire. Tie-down notches offer security and greater stability under severe weather conditions.

Units include a galvanized steel bucket that collects thousands of butts. For maximum cleaning convenience, use optional disposable bucket liners. Once bucket is full, simply twist-tie closed and throw away!

SAFETY CABINETS FOR FLAMMABLES

Williams Brothers Cabinets for Flammables
The **WB SAFETY STORAGE CABINETS** will offer safer storing for flammable liquids, reduce time–consuming trips to remote storage rooms and permit storage close to work areas. Designed and labeled by the Underwriters Laboratories of Canada as meeting the requirements of the National Fire Code of Canada 1980 part 4 Flammable and Combustible Liquids performance clause 4.2.10.4. ULC Listed Flammable Liquid Safety Cabinets (Insulated).

JUSTRITE®

Justrite Classic Safety Cabinets for Flammables

Protect workers, reduce fire risks, and improve productivity by storing flammable fuels and chemicals in code-compliant safety cabinets. Designed to meet OSHA and NFPA standards, Sure-Grip® EX cabinets are constructed of sturdy 18-gauge (1-mm) thick double-wall, welded steel with 1½" (38-mm) of insulating air space for fire resistance. High-performance, self-latching doors close easily and securely for maximum protection under fire conditions. Fail-safe closing mechanism ensures three-point stainless steel bullet latching system works every time.

Manual-close door(s) opens to a full 180 degrees and self-latches when pushed closed. Self-close door(s) shuts and latches automatically when a fusible link melts at 165°F (74ºC) under fire conditions.

- Manual Close or Self Close Door Option
- Patented SpillSlope galvanized steel shelves
- Dual vents with flame arresters
- Four adjustable self-leveling feet
- Grounding connector
- Ten-year warranty

COMPACT AND COUNTERTOP CABINETS FOR FLAMMABLES

Justrite COMPAC Safety Cabinets

COMPAC SAFETY CABINETS fit almost anywhere and provide protection even where space is at a premium. These cabinets are ideal when storing lesser quantities of flammable liquids at a workstation or adding to existing storage capacities. These cabinets have all the great features and benefits of the Justrite Classic cabinets.

The door(s) of the Self-close Models shuts and latches automatically when a fusible link melts at 165°F (74ºC) under fire conditions.

- 18-gauge (1-mm) thick double-wall construction
- Manual or Self Close Door Models Available
- Meet OSHA and NFPA standards
- FM Approved
- Patented SpillSlope galvanized steel shelves
- Dual vents with flame arresters
- Four adjustable self-leveling feet
- Grounding connector
- 10 Year Warranty

Justrite Countertop Cabinets for Flammables

COUNTERTOP SAFETY CABINETS allow increased access to frequently used liquids, without compromising safety. Portable size keeps work areas flexible. Use optional wall hanger assembly for wall mounting. These cabinets have all the features and benefits of Justrite's larger (30-90 Gal) Classic Safety Cabinets for flammables, but fit almost anywhere where floor space is limited.

- 18-gauge (1-mm) thick double-wall construction Doors
- Manual Close
- Meet OSHA and NFPA standards
- Patented SpillSlope galvanized steel shelves
- Dual vents with flame arresters
- Four adjustable self-leveling feet
- Grounding connector
- Trilingual warning label
- 10 Year Warranty

SDS DOCUMENT STORAGE

STORAGE BOX is impervious to dirt and moisture. This handy storage unit is tough, boasting rustproof polyethylene construction. There's also heavy-duty, double-sided tape for easy installation just about anywhere and a bright-red finish so you won't lose it. Unit features a flip top with easy snap latches for instant access. Storage box measures 10¼" x 12½" x 2¼" (outside) and 8¾" x 11½" x 1⅝" (inside).

PART#	DESCRIPTION
23303	Document Storage Box
23310	(1) MSDS Label & (2) Blank Labels

23303

DISPOSAL

Rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives and other flammable liquids present a serious fire risk when improperly discarded. Lid opens to no more than 60 degrees and stays closed when not in use, isolating contents from fire sources and limiting oxygen to virtually eliminate the risk of spontaneous combustion. Round construction and elevated base allow circulation of air around can to disperse heat and reduce moisture build-up and rusting. Durable steel construction with a powder-coat finish provides chemical resistance.

TYPE I SAFETY CANS

TYPE 1 SAFETY CANS are for carrying flammable liquids. Features terne plate (lead/tin coated steel) construction to protect cans against abrasion and rough use. Justrite's® state-of-the-art powder coat paint finish resists solvents, acids and alkalis and minimizes effects of corrosion and humidity. Comes with free-flow flame arrester and a positive spring-mounted relief mechanism that automatically vents at 5 psi. FM, UL and ULC approved.

TYPE II SAFETY CANS

TYPE II SAFETY CANS are for carrying flammable liquids. Leak-proof terne plate (lead/tin coated steel) construction with powder coat finish to resist solvents, acids, and alkalis. Features a built-in flexible metal hose for spill-free pouring, swinging handle design for easy handling, free-flow flame arrester to stop flashback ignition and a relief mechanism that vents pressure at 5 psi. FM, UL and ULC approved.

RAX-332

NOTES:

1) The FX-351/FX-353 systems will support the following items (ordered separately):
 a) up to a RS1212 Battery (12 Amp Hr)
 b) class A converters OCAC-304
 c) additional relays RM-312 (12) or RM-306 (6)
 d) PR-300 module city tie & polarity reversal module
 e) a combination of seven (7) remote multiplexed LED annunciators, LCD annunciators & smart relays

2) The FX-351/FX-353 systems can be configured via the front panel switches, or with the use of a laptop computer (requires UIMA configuration tool). To remote program or retrieve the alarm(200) or event(200) logs the panel must include a UDACT.

3) The RAM-300LCDW remote LCD annunciator is only ULC listed as an ancillary remote annunciator and can not be used as a primary annunciator.

4) The FX-351/FX-353 will charge up to a 26 Amp Hr battery which will require a remote mount battery cabinet (BC-160)

5) The FX-351/FX-353 include one 32 point internal annunciator. One additional RAX-332 internal annunciator module can be added to increase the internal annunciator points to 64.

6) Order End of Line Plates MP-300 Separately (one per signal circuit)

FR320R

NOTES:
1) The FR-320 releasing system will support the following items (ordered separately):
  a) up to a RS1212 (12 Amp Hr)
  b) class A converters ICAC-306, OCAC-302
  c) additional relays RM-312 (12) or RM-306 (6)
  d) PR-300 module city tie & polarity reversal module
  e) a combination of four (4) remote multiplexed LED annunciators & smart relays. The FR-320 does NOT support the RAM-300LCDW Series 300 LCD Annunciator.
2) The Series 300 system is configured via the front panel switches with out the need of a laptop computer. Use CFG-300 to retrieve the alarm (200) or event (200) logs the panel remotely the FR-320 must include a UDACT
3) The FR-320 will support all of the Mircom LED type annunciators
4) The FR-320 will charge up to a 26 Amp Hr Battery which requires a remote battery cabinet (BC-160)

OPTIONAL MODULES

Mircom FR-320 Series

PART#	DESCRIPTION
RM306	Series 300 6 Relay Adder c/w 6 Relays Rated 28 VDC @ 1 Amp (NO or NC) Configurative for One to One Common Alarm or Common Supervisory
RM312	Series 300 12 Relay Adder c/w 12 Relays Rated 28 VDC @ 1 Amp (NO or NC) Configurative for One to One Common Alarm or Common Supervisory
PR300	Polarity Reversal & City Tie c/w Alarm, Supervisory & Trouble Transmit Capabilities
ICAC306	Series 300 Input Class 'A' Converter Module 6 Circuits (For Use With FA-300 or FA-301 Panels)
MP320W	Solenoid End of Line Resistor, White
MP1500W	Current Limiter Module, While

RM306 / RM312

SMART RELAY

Mircom FR-320 Series

PART#	DESCRIPTION
SRM-312W	Series 300 Smart Relay Module, c/w White Enclosure 12 Configurable Relays (NO or NC), One to One, Common Alarm, Common Supervisory

SRM-312W

ABORT STATION

PART#	DESCRIPTION
SS2004ZA-EN	Momentary mushroom switch abort station, stainless steel backplate N.O. or N.C. SPST gold plated contact blocks rated for 3 amps @ 600 VAC or 1 amp @ 250 VDC 1st line of top label reads :"EXTINGUISHING SYSTEM"; 2nd line of top label reads: "ABORT STATION"; Bottom label reads "PUSH AND HOLD TO CANCEL"

SS2004ZA-EN

ANNUNCIATORS

GRAPHIC ANNUNCIATION MODULES

NEW FX-350, FA-1000

PART#	DESCRIPTION
▶ MGD-32	Master Graphic Driver Board c/w, Fire Alarm Common Control Switch Inputs & LED Outputs 32 Supervised Outputs, Output Connections via Terminals or Ribbon Cable Mounts in Graphic Wallbox or BB-5008 or BB-5014 Enclosures
▶ AGD-048	Adder Graphic Driver Board, c/w 48 Supervised Outputs, Output Connections via Terminals or Ribbon Cable Mounts in Graphic Wallbox or BB-5008 or BB-5014 Enclosures

REMOTE ANNUNCIATION NOTES:

1) The maximum number of remote annunciators the FX-2000/FA-1000 can support is 8 without the use of a remote shared display
2) Each remote annunciator must have a master i.e. RAM-1032TZDS or MGD-32
3) All of these annunciators must be configured the same in each location
4) The total number of LED or graphic type of annunciators can not exceed 8
5) Graphic and LED type annunciators can be inter mixed on the same RS-485 output
6) Consult the factory for power supply requirements for large systems
7) Graphic annunciators will require an external lamp test power supply
8) Graphic annunciator driving incandescent lamps will require an external supervised power supply consult the factory
9) For reduced zone annunciation see remote shared display

We are in the business of growing your business

ANNUNCIATORS

NEW RA-200

PART#	DESCRIPTION
▶ RAM-208R	Remote Multiplex Annunciator c/w, 8 Bi-Coloured LEDs Common Control Features: Signal Silence, Buzzer Silence, System Reset, Lamp Test Indicators -- A.C. On, Common Trouble & Signal. Silence Mounts in 4 Gang Electrical Box, Red Finish Used with Series 300 and Series 1000
▶ RAM-208	Remote Multiplex Annunciator c/w, 8 Bi-Coloured LEDs Common Control Features: Signal Silence, Buzzer Silence, System Reset, Lamp Test Indicators -- A.C. On, Common Trouble & Signal. Silence Mounts in 4 Gang Electrical Box, White Finish Used with Series 300 and Series 1000
▶ RAM-216	Remote Multiplex Annunciator c/w, 16 Bi-Coloured LEDs Common Control Features:Signal Silence, Buzzer Silence, System Reset, Lamp Test Indicators -- A.C. On, Common Trouble & Signal. Silence Mounts in 4 Gang Electrical Box, White Finish Used with Series 300 and Series 1000

NEW

RAM-208

RA-1000

PART#	DESCRIPTION
RAM1016TZDS	Main Annunciator Chassis c/w 16 Bi-Coloured Alarm/ Supervisory LEDs & 16 Zoned Trouble LEDs Common Indicators -- AC On, Common Trouble, Auxiliary Disconnect, 2 Stage Acknowledge & General Alarm Activate (if Config.), Common Controls -- Reset, Lamp Test, Fire Drill, Auxiliary Disconnect, Local Buzzer & Signal Silence Mounts in BB-1000 Series enclosure or BB-5008 or BB-5014
RAM1032TZDS	Main Annunciator Chassis c/w 32 Bi-Coloured LEDs, 32 Zoned Trouble LEDs Common Indicators -- AC On, Common Trouble, Auxiliary Disconnect, 2 Stage Acknowledge & General Alarm Activate (if Config.), Common Controls -- Reset, Lamp Test, Fire Drill, Auxiliary Disconnect, Local Buzzer & Signal Silence Mounts in BB-1000 Series enclosure or BB-5008 or BB-5014
RAX-1048TZDS	Adder Annunciator Chassis c/w 48 Bi-Coloured LEDs; 48 Zoned Trouble LEDs Mounts in BB-1000 Series enclosure or BB-5008 or BB-5014

NEW Kidde FX Conv.

PART#	DESCRIPTION
▶ FSRSI	Remote Zone Annunciator, LED, Alarm, Trouble, Supv, Ground Fault
▶ FSRZI-A	Remote Zone Annunciator, LED, Alarm by Zone
▶ FSRZI-SA	Remote Zone Annunciator, contains 5 bi-color LED's (Red/Yellow) for alarm or supervisory zone indication, jumper selectable zone settings, single gang, includes white trim plate
▶ FSAT2	Remote Annunciator Wall Trim Plate, Two Gang, White
▶ FSAT3	Remote Annunciator Wall Trim Plate, Three Gang, White
▶ FSAT4	Remote Annunciator Wall Trim Plate, Four Gang, White
▶ K-FSRA10	10-zone remote annunciator with system status LEDs (English overlay)
▶ K-FSRA10F	Single Unit 10 zone remote annunciator for FX-10, **French Canada**
▶ K-FSRA10C	10-zone remote annunciator with system status LEDs and common controls **(English overlay)**
▶ K-FSRA10CF	Single Unit 10 zone remote annunciator for FX-10 (with common controls), **French Canada**

NEW

K-FSRA10C

NOTES:
The FSRI can be installed alone or with one or more FSRZI-As. The FSRSI and FSRZI-A require trim plates (sold separately). Each panel will support two FSRSIs.

FIRE ALARM ELECTRICAL CABLE

Unarmoured Unshielded Cable

Fire Alarm 18 AWG Unshielded 300V is CSA certified to CSA C22.2 No. 208. Fire Alarm and Signal Cable. Conductors are cabled together. A PVC jacket is applied over the twisted assembly.

PART#	DESCRIPTION
FAG1803CB0300	Fire Alarm 3/C 18 AWG Unshielded 300V, Red, 300m/Spool
FAG1805CB0300	Fire Alarm 5/C 18 AWG Unshielded 300V, Red, 300m/Spool

Shielded Unarmoured Cable

Fire Alarm 18 AWG Unshielded 300V is CSA certified to CSA C22.2 No. 208. Conductors are cabled together with an overall shield and drain. A PVC jacket is applied over the twisted assembly.

PART#	DESCRIPTION
FAG1803CB1300	Fire Alarm 3/C 18 AWG Shielded 300V, Red, 300m/Spool
FAG1805CB1300	Fire Alarm 5/C 18 AWG Shielded 300V, Red, 300m/Spool

Shielded Unarmoured

Armoured Unshielded Cable

Fire Alarm Armoured and Unshielded 300V is CSA certified to CSA C22.2 No. 208. Conductors are cabled together. A PVC jacket is applied over the twisted assembly. An aluminum interlocking armour is applied over the inner jacket.

PART#	DESCRIPTION
AC140499150	Fire Alarm 4/C 14 AWG Unshielded, Armoured 300V, 150m/Spool
FAA1803CB0150	Fire Alarm 3/C 18 AWG Unshielded, Armoured 300V, 150m/Spool

FIRE SPRINKLER MONITORING

ALARM PRESSURE SWITCHES

System Sensor EPSA10 Series

System Sensor **EPSA10 Series** field-adjustable pressure switches are designed for use in wet, dry, deluge and pre-action automatic sprinkler systems to indicate a discharge from a sprinkler.

PART#	DESCRIPTION
EPSA10-1P	Alarm Pressure Switch, One SPDT, Plastic Fitting
EPSA10-2P	Alarm Pressure Switch, Two SPDT, Plastic Fitting

EPSA10-1P

System Sensor EPSA40 Series

System Sensor **EPSA40 Series** supervisory field-adjustable pressure switches are intended for dry pipe systems or pressure tanks and water supplies of automatic water control valves. This model offers a choice of initiating low or high/low pressure monitoring alarms, in a variety of pressure ranges.

PART#	DESCRIPTION
EPSA40-1P	Low Pressure Supervisory Switch, One SPDT, 10–100 PSI - Plastic Fitting
EPSA40-2P	High/Low Pressure Supervisory Switch, Two SPDT, 10–100 PSI - Plastic Fitting

System Sensor EPSA120 Series

System Sensor **EPSA120 Series** supervisory field-adjustable pressure switches are intended for dry pipe systems or pressure tanks and water supplies of automatic water control valves. This model offers a choice of initiating low or high/low pressure monitoring alarms, in a variety of pressure ranges.

PART#	DESCRIPTION
EPSA120-1P	Low pressure supervisory switch, one SPDT, 10–200 PSI
EPSA120-2P	High/low pressure supervisory switch, two SPDT, 10–200 PSI

SUPERVISORY SWITCHES

System Sensor Supervisory Switches

System Sensor's electric supervisory switches are used to monitor the open position of Outside Screw and Yoke (OS&Y) type gate valves, post indicator and butterfly control valves (PIBV2A) and other type of valves. System Sensor's PSP1A plug-in switch is a special application supervisory switch designed for applications where no other type of listed valve supervisory switch can be used. Each feature a NEMA 3R-rated enclosure that is also tamper resistant. ULC listed and FM approved.

WATERFLOW DETECTORS

System Sensor WFDNA Series

The WFDNA Series waterflow detectors from System Sensor consists of a rugged, NEMA 4-rated enclosure that is more damage resistant than previous metal designs. The waterflow detector is designed for both indoor and outdoor use, with the widest available temperature range, from 0°C to 66°C (32°F to 150°F). The System Sensor WFDNA series is compatible with schedule 7 through 40 steel pipe, for sizes 2 in. through 4 in. and compatible with schedule 10 through 40 steel pipe, sizes 6 in. through 8 in., and can be mounted in a vertical or horizontal position.

FIRE ALARM BATTERIES

ALKALINE BATTERIES

Energizer® ALKALINE BATTERIES are designed for today's heavy current or continuous use applications. These batteries have no mercury added; therefore, special disposal is not required. They operate well with temperature extremes (-20ºF to 130ºF), with excellent shelf life.

PART#	DESCRIPTION
ALK92	AAA Alkaline Battery, Energizer Industrial
ALK91	AA Alkaline Battery, Energizer Max
ALK93	C Alkaline Battery, Energizer Industrial
ALK95	D Alkaline Battery, Energizer Max
ALK22	9V Alkaline Battery, Energizer Max

ALK92   ALK91   ALK93   ALK95   ALK22

LITHIUM BATTERIES

For the countless electronic gadgets you can't live without, rely on Energizer® Advanced Lithium Batteries.

- Up to 10-year backup battery in AC-powered smoke detectors
- Last up to 20% longer in toys versus Energizer® MAX®
- Weigh ¼ less than standard alkaline
- Perform in extreme temperatures from -40°F to 140°F
- Leak-resistant construction

PART#	DESCRIPTION
U9VL	9V Lithium Battery, Energizer Advanced

U9VL

SEALED LEAD ACID BATTERIES

STEEL EMERGENCY LIGHT BATTERIES are one of the most powerful and economical batteries you can buy.

Batteries will be shipped separately from other items ordered and those items will be shipped according to our regular freight policy **TRANSPORT TRUCK TAILGATE CHARGES ARE EXTRA.**

All battery orders placed before 1pm Eastern Standard Time will be shipped same day! Orders placed after will be shipped next day. The approximate shipping times via GROUND to major cities across Canada are as follows:

Ontario and Quebec – Next day delivery (some rural areas may be two days)
East Coast – NS, NB, PEI – 2 days; NFLD – 4 days
Central Canada (Manitoba, Saskatchewan) – 2 – 3 days
Western Canada – 3 days to Calgary / Edmonton
NWT, YK – 6 days
BC - Next day

WIRELESS INTERCONNECT

Kidde Wireless Interconnect

For home residential use. Wireless or hardwire interconnect triggers each connected alarm in the network to sound once smoke is detected. This can provide more time to react. Existing networks of interconnected alarms can be expanded with use of a single P4010ACS-WCA and additional Kidde Wireless alarms.

ALARM RELAY MODULES & ALARM ADAPTORS

The **Kidde** **120X** can be used to activate auxiliary warning devices such as external bells and sirens, hallway or stairway lighting. This relay will only activate when it receives a smoke signal from an interconnect Smoke Alarm.

The **Kidde** **CO120X** can be used to activate auxiliary warning devices such as external bells and sirens, hallway or stairway lighting. This relay will only activate when it receives a CO signal from an interconnect Carbon Monoxide Alarm.

The **BRK** **RM4** works with **BRK** Smoke and Heat Alarms and Smart interconnect CO alarms. This 120V AC Auxiliary Relay features form-C contacts that switch between normally open and closed contacts.

The **BRK** **ADK-12** adapter plug allows you to easily connect competitive alarms without rewiring. **For use with Kidde smoke alarms.**

PULL STATION PROTECTORS

Stopper II Indoor Use

Stopper II Models for Indoor Use consist of a clear, tamperproof, tough polycarbonate shield and frame, but the line includes models with the option of a piezo horn and spacer. The cover accommodates most manual pull stations.

Safety Technology International, Inc.

- ULC Listed to Canadian safety standards (for standard and custom labeling)
- Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C)
- Optional horn has a choice of 95 or 105 dB self-contained alarm (includes 9V battery)
- Standard red units have "In Case of Fire..." label unless specified with "no label" or "custom label" (extra charge for custom label)
- Horn housing is available in red, blue, green or yellow with optional custom labeling

UNIVERSAL STOPPER PRODUCTS

Universal Stopper Indoor/Outdoor Use

These indoor/outdoor low profile or dome polycarbonate covers protect devices such as dual action pull stations, keypads for entry systems, intercom stations, emergency buttons, electrical light switches, duplex plugs, etc., without restricting legitimate operation.

Cover options: dome or low profile, with or without horn, flush mount, surface mount or waterproof back box models. Maximum protrusion is 4 inches deep.

- ULC Listed to Canadian safety standards (for standard and custom labeling)
- Sized to fit most pull stations
- Gaskets included
- Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C)
- Red units "In Case of Fire…" label

DETECTOR TEST AEROSOLS

HSI FIRE's SmokeCheck® Smoke Detector Tester (MFG# 25S) is ULC Listed and contains about 150 tests per can. Can be used to test both photoelectric and ionization detectors. Non-toxic and environmentally safe. For high, hard to reach alarms try our N30 with N59. 1490 Adapter Tube improves aim & accuracy in turbulent air conditions. **Note: A total of 5 N59 poles can be combined to reach a maximum height of 34 ft.**

PART#	DESCRIPTION
SDT	Smoke Detector Tester - 2.5 oz (25S)
N30	30" Grip & Trigger (use with N59)
N59	59" Aerosol Extension Pole (use with N30)
1490	"Smoking Gun "Test Adapter with 18" Extension

1490 / N59 / N30

SDT

SABRE Smoke Detector Tester is for handheld testing and features:

- ULC Listed
- Detector manufacturer endorsed
- More tests per can
- Fast detector activation and clearing
- The end of harmful residue - risk is designed out with the SABRE
- Silicone free
- Eco-responsibility - 100% bio-degradable SABRE, ozone friendly, no CFCs and low GWP
- 300 tests per can

PART#	DESCRIPTION
SABRE	3 oz HandHeld Smoke Detector Tester

SABRE

SOLOA10 Smoke Detector Tester is designed to be used handheld or in an aerosol dispenser like the **SOLO330**. This tester is non-flammable, non-toxic, silicone free, and leaves no harmful residue on the tested smoke detectors. Conforms to new global aerosol regulations. 500 tests per can. **Replaces SOLOA4.**

PART#	DESCRIPTION
SOLOA10	4.8 oz Smoke Detector Tester

SOLOA10

SMOKE CENTURION Smoke Detector Tester (M8) checks the functionality of smoke detectors. Designed to be used handheld or in an aerosol dispenser like the **SOLO330**. 250-300 tests per can.

- ULC Listed
- Formula approved by leading detector manufacturers
- Either hand-held or with use with SOLO330/332
- Silicone free testing, reduces risk of detector contamination
- Fast detector activation and clearing
- High eco responsibility: ozone friendly (no CFCs) and low GWP propellant

PART#	DESCRIPTION
M8	2.6 oz Centurion Aerosol Smoke Detector Tester

M8

DETECTOR TEST AEROSOLS CONTINUED

SOLOC6 **Carbon Monoxide Test Aerosol** is designed to be used handheld or in an aerosol dispenser like the **SOLO330**. It is manufacturer approved. The UL Listed **SOLOC6** introduces REAL CO to the sensing cell of the detector. SOLOC6 can be used either as handheld or with the **SOLO330/332** dispenser. The procedure takes no longer than one minute for each detector and is easily carried out using the TEST MODE setting within the detector.

PART#	DESCRIPTION
SOLOC6	Canned CO for Handheld Use or with SOLO330/332

SOLOC6

SOLO 330 **Aerosol Dispenser** is designed to fit the widest range of detectors and is backed by a limited lifetime warranty. Solo 332 is also available for extra-large detector sizes.

- **For use with SOLOA10 and SOLOC6**
- Universal design suits widest range of detectors (up to 4" / 100mm in diameter)
- Spring-loaded solution for suspended ceilings
- Transparent test cup for clear view of detector LED
- Detector manufacturer approved
- Solo 332 suitable for detectors up to 7" / 177mm in diameter

PART#	DESCRIPTION
SOLO330	Aerosol Dispenser ULC Listed for use with SOLO10 and SOLOC6
SOLO332	Aerosol Dispenser for larger detectors up to 7"/ 177mm in Dia.

SOLO330

SMOKE400 **Sensitivity Aerosol** is to be used with the TruTest 801 to test the detector sensitivity of ionization or photoelectric smoke detectors. UL Listed, Non-Flammable.

PART#	DESCRIPTION
SMOKE400	9.5 oz TruTest Sensitivity Aerosol

SMOKE400

DETECTOR REMOVAL AND CLEANING

BlowOut hand-held **Air Duster** is perfect for use with fire alarm equipment. Over time, dirt and debris can build up on a detector and decrease its sensitivity. BlowOut comes complete with a directional straw allowing access to hard to reach areas and is available in a large 10 oz can. No CFC's and Silicone free.

NEW

PART#	DESCRIPTION
BLOWOUT	10 oz Detector Duster (canned air)

BLOWOUT

SOLO DETECTOR DUSTER is ideal to assist with the cleaning of detectors from debris that can collect on detector surfaces which can cause false alarms or failure to alarm in a fire situation.

PART#	DESCRIPTION
SOLOA7	10.7 oz cans duster, canned air non flammable

SOLOA7

AIR BLAST 2000® canned air is non-flammable, non-residual, nonabrasive, with zero ozone depletion potential. Air Blast is moisture free and delivers up to 96 lb. per square inch of pressure. Great for cleaning smoke alarms, panels, and office equipment.

PART#	DESCRIPTION
AB2000	Air Blast 2000 (10 oz)

AB2000

We are in the business of growing your business

ALARM COMPONENT TESTING

dbCHECKER sound level meter is ideal for testing audible appliances for the public operation mode of an emergency voice / alarm system in accordance with manufacturer's instructions. Meets requirements of NFPA 72 by meeting ANSI S1.4 Type 2 requirements. 32dB to130 dB at frequencies between 31.5 Hz and 8 Hz.

PART#	DESCRIPTION
DB02	Sound Level Meter

DB02

AIR VELOCITY CHECKER is the ideal device for annual testing to ensure that the duct detector will sample the air velocity as required by NFPA 72 (10.4.2.14g (4)), CAN/ULC 5536-04 (5.7.4.4.1), and according to manufacturer's instructions. Portable, lightweight, battery operated device. Includes hard case.

PART#	DESCRIPTION
AV02	Air Velocity Test Tool

AV02

DUCTCHECKER test tool is the ideal device for annual testing to ensure that the duct detector will sample the airstreams properly as required by NFPA 72 Chapter 10 (10.4.2.2 14 g(4)) and according to manufacturer's instructions. Includes hard case and sampling tube plugs. Meets CAN/ULC S536-04, 5.7.4.4.1.

PART#	DESCRIPTION
DUCTCHECKER	Duct Detector Test Tool

DUCTCHECKER

SOLO ACCESS POLES

SOLO ACCESS POLES are made of fiberglass and are designed for use in servicing fire detectors and can be combined to service heights up to 30+ feet. Made from lightweight, non-conductive fiberglass, suitable for use near electronics with all SOLO products. Lifetime warranty.

PART#	DESCRIPTION
SOLO100	Telescopic Pole extends from 4.8 ft to 14.9 ft allowing access to detectors fitted up to 20 ft
SOLO101	Extension Pole 3.9 ft – Up to 3 can be used to extend the SOLO100 to access 30 ft
SOLO108	Telescopic pole extends to 8ft allowing reach up to 13 ft

SOLO100

SOLO108

HEAT DETECTOR TESTING

- Battery powered - no hanging wires / tangled cables
- Lightweight and simple to use
- Suits fixed temperature, rate-of-rise and combination detectors up to 194°F / 90°C
- Unique IR activation & Cross Air Technology for optimum energy use and results

- Universal design suits widest range of detectors
- Adjustment lever for angled surfaces
- Transparent test cup for clear view of detector LED
- Includes 2 Slim NiMH battery batons and charger for rapid charging

PART#	DESCRIPTION

MULTICRITERIA DETECTOR TESTING

testifire®
MULTI-STIMULUS DETECTOR TESTER

TESTIFIRE is the world's first multi-stimulus detector tester for smoke, heat and CO fire detectors.
Uniquely capable of producing smoke, heat and CO stimuli, Testifire enables tests of fire detector sensors to be conducted independently, sequentially or simultaneously. Equally suitable for single or multi-sensor, point or aspirating fire detectors, Testifire is the most advanced fire detector tester available today. **IT ENABLES FASTER AND MORE EFFICIENT TESTING OF BOTH SINGLE AND MULTI-SENSOR DETECTORS**. There are two models available - Testifire 1000 for testing smoke and heat and Testifire 2000 for testing smoke, heat and CO. Testifire is UL certified and is approved by leading detector manufacturers from around the world. Each unit is fully programmable to carry out single, simultaneous or combined test cycles. Designed to be used with SOLO poles.

TESTIFIRE 1001 Smoke and Heat Detector Tester includes:

- Testifire 1000 Head Unit
- 1x Smoke Capsule
- 2 x Solo 760 Battery Batons and Charger

TESTIFIRE 2001 Smoke, Heat & CO Detector Tester includes:

- Testifire 2000 Head Unit
- 1 x Smoke Capsule and 1 x CO Capsule
- 2 x Solo 760 Battery Batons and Charger

TF1000   TF2000

CLASSIFIED UL SIGNALING
Multi-Detector Test Apparatus Used to Verify a Detector's Functional Operation

TESTIFIRE Remote Control (TF25)

An optional accessory, the remote control is required only for situations where the IR test beam of Testifire that triggers or stops a test is not broken by a physical presence.

PART#	DESCRIPTION

DETECTOR SENSITIVITY TESTING

TRUTEST enables fire alarm technicians to measure the sensitivity of installed smoke detectors quickly, accurately, easily, and professionally. A revolutionary product, Trutest not only introduces a smoke test aerosol through the vents of the installed detector to the sensing chamber, but operates using a precision closed loop system - measuring smoke obscuration and feeding back information to a controlling microprocessor.

Calibration is required every 12-18 months or 5000 tests whichever comes first. Trutest will not perform anymore tests once it hits 5000 tests. SDi is an authorized UL service centre and provides a calibration service.

TRUTEST 801 SMOKE DETECTOR SENSITIVITY TESTER

- UL Listed
- Reduces false alarms - a huge problem in the industry
- Battery operated and easily portable
- Simple to use
- Suits most detectors - both ionization and photoelectric
- Calibrated and results in % / ft
- Automatically self-calibrates before each test
- Measures actual detector sensitivity
- Self calibrates before testing
- Test detectors in place. No need to remove detector

TRUTEST801

TRUTEST 800 KIT

- 1 x Trutest 801 Smoke Detector Sensitivity Tester
- 12 x Trutest Smoke 400 Detector Test Aerosol Canisters
- Storage case and pole bag
- 1 x Solo Telescopic Access Pole

TT800KIT

EXIT AND EMERGENCY LIGHTS

SELF-LUMINOUS TRITIUM EXIT SIGNS

TRITIUM EXIT SIGNS are self-luminous signs that require no power to operate. The EXIT and Running Man signs are ULC listed, vandal resistant, waterproof, explosion proof, and incapable of generating sparks. These single-sided signs come complete with mounting hardware (surface, flag, ceiling, etc.) and tape to block out chevrons as required. A sticker on the unit lets you know when the sign is to be replaced.

- No Batteries
- No Electricity
- Water-proof
- Vandal Resistant
- Non Maintenance
- Explosion Proof
- Operating Temp - 76°F TO +212°F
- Recyclable if returned to Manufacturer

NOTE: Signs are shipped as Dangerous Goods. Extra shipping charges will apply.
ORDERING NOTE: Address where the signs are to be installed is required when ordering per Government Regulations for these signs.

PHOTOLUMINESCENT EXIT & RUNNING MAN SIGNS

Suitable for floor proximity installation. Can be used for both high-level and low-level applications.

- Zero energy consumption, zero cost, zero maintenance
- Non-toxic, non-radioactive, no disposal cost
- Movable if egress paths changed
- Visible at 15.25 meters (50 feet) for a minimum of 90 minutes
- Life expectancy: 25+ years
- Explosion-proof

BATTERY UNITS

WAY2GO LED

AIMLITE's commercial **EBST-2L/EBST12-2L WAY2GO LED SERIES** features a steel battery unit designed to provide efficient and reliable emergency lighting. Utilizing a sturdy all steel housing, our series presents a modern and unobtrusive design. Available in 6VDC 36W with **over 4-hours duration** and 12VDC 72W with **over 8-hours duration**. LED heads for the 6VDC unit are equivalent to 2 x 12W quartz bi-pin lamps, 12VDC LED heads are equivalent to 2 x 20W MR16 lamps.

- Crisp white LEDS with limited lifetime warranty
- Diagnostic/pilot LED
- 3½ ft Line Cord Included
- 20-Gauge steel construction

EBST

The **EBST SERIES** of commercial steel battery units is designed to provide efficient and reliable emergency lighting. Utilizing a sturdy, all steel housing, the EBST presents a modern and unobtrusive design. On higher capacity models, the cabinet front is sloped to allow better internal access and superior low angle light distribution. The EBST series is available in 6VDC, 12VDC and 24VDC versions in a range of wattage capacities between 18 and 720W, for 30-minute duration. Standard with 9 Watt Par 18 type heads however a wide range of lamps, including **LED**, and head type, number and placement are available, including MR16. The EBST can also accommodate a wide variety of options, including auto-testing self-diagnostics and remote testing.

3½ ft Line Cord Included.

WAY2GO

The commercial **WAY2GO LED SERIES** steel combos feature a slim profile that prevents light leaks. Easy to install design, available in 6VDC 36W with **over 4-hours duration** and 12VDC 72W with **over 8-hours duration**. **LED** heads for the 6VDC unit are equivalent to 2 x 12W quartz bi-pin lamps, 12VDC LED heads are equivalent to 2 x 20W MR16 lamps. Available in **RUNNING MAN** and **EXIT** and **SORTIE** styles.

- Crisp white LEDS with limited lifetime warranty
- Diagnostic/pilot LED
- 120/347 VAC input
- 20-Gauge steel construction
- Running Man comes standard with 3 Pictogram legends for direction selection
- EXIT and SORTIE comes Standard with two faces

LED EXIT SIGNS

RPST

The clean lines of the **RPST SERIES** of commercial steel signs present a fully modern appearance. The steel provides for a rigid, durable and light-weight sign. Available in AC only, AC/DC and internally self-powered versions.

- LED ultra-bright light source
- 120/347 VAC input
- Steel Construction
- Running Man comes standard with 3 Pictogram legends for direction selection
- Standard self-powered model provides 90-minutes emergency duration (120-minutes models are available)

TEST EQUIPMENT AND LABELS

CUSTOM AND BLANK LIGHTING SERVICE LABEL as required per NFPA 101 provides a service record for customer and local authorities. Both Service labels are priced per roll of 100 labels. Each label measures 3¼" x 1½". CUSTOM LIGHTING SERVICE LABEL imprinted with your company name, address and phone number. There is **a three-roll minimum** for the Custom labels.

PART#	DESCRIPTION
ELTL	Emergency Lighting Test Label, Blank
CUELTL	Emergency Lighting Test Label, Custom, 3 Roll Minimum

CUELTL

SEALED LEAD ACID BATTERY TESTER uses accurate pulse load testing to test battery performance – not just voltage/internal resistance. This tester identifies weak or failing batteries in alarm systems. Testing capacity (models) includes 2-volt (2-25AH), 4-volt (2-25AH), 6-volt (1-4AH, 5-15AH, 16-50AH, 20-100AH, 50-200AH), 8-volt (2-20AH, 20-100AH) and 12-volt (1-4AH, 5-15AH, 16-50AH, 20-100AH, 50-200AH). Requires 4 x AA batteries (not included). Test duration is approximately 15 seconds. Comes standard with 48" rubber coated lead wire, solid copper clamps, R/A sheathed banana plugs. Dimensions: 9¼" x 6¼" x 2".

PART#	DESCRIPTION
CELL03	Lead Acid Battery Tester Only
CELLCHECK	Lead Acid Battery Tester w/ CELLCASE
CELLCASE	Soft Technician's Case for Cellcheck

CELL03

CELLCHECK

Brooks' **MULTI-METER** is versatile and compact. The unit will measure both AC & DC and determine continuity of lamp. Unit also has a display locking feature.

PART#	DESCRIPTION
DM73B	Compact Multi-meter

DM73B

Brooks' **GLASS STRAPPING TAPE** is perfect for holding down exit sign and emergency light test buttons. Each roll comes with its own dispenser.

PART#	DESCRIPTION
GSTAPE	Glass Strapping Tape - Package of 1

GSTAPE

The **MINI VOLT STIK** is a non-contact voltage tester. It will indicate if voltage is present without actually coming in contact with the voltage source. Features audible and visual indications, positive battery check and shirt pocket clip. Test range is 50 – 600VAC. Batteries included.

PART#	DESCRIPTION
VT201	MINI VOLT STIK

VT201

BATTERY LEADS replace old, corroded battery leads to ensure optimum battery performance. The UBL can also be used to retrofit any existing lead connection. The PBL is ideal for use when replacing a battery with a plug connector attached.

WIRE GUARDS

STI Exit Sign Damage Stopper®

- Guard helps protect against vandalism and damage
- Constructed of 9-gauge, welded steel wire, coated with a tough, corrosion resistant polyester shell
- Fast and easy installation with anchors and screws included (Tamper resistant hardware is available)
- Simple removal for light bulb replacement
- All dimensions listed are internal
- Battery Unit Models listed under Applications are based on dimensions with PAR18 Small Heads
- Models may be shown under Applications for both Exit and Emergency Lighting Cage section

!! NOTE: When lights are used for emergency exit corridor lighting, this guard can reduce projected light reading on floor. Verify field conditions as required by NFPA 101 life safety.

LITHIUM BATTERIES

For the countless electronic gadgets you can't live without, rely on Energizer® Advanced Lithium Batteries.

- Up to 10-year backup battery in AC-powered smoke detectors
- Last up to 20% longer in toys versus Energizer® MAX®
- Weigh ¼ less than standard alkaline
- Perform in extreme temperatures from -40°F to 140°F
- Leak-resistant construction

PART#	DESCRIPTION
U9VL	9V Lithium Battery, Energizer Advanced

U9VL

SEALED LEAD ACID BATTERIES

STEEL EMERGENCY LIGHT BATTERIES are one of the most powerful and economical batteries you can buy.

Batteries will be shipped separately from other items ordered and those items will be shipped according to our regular freight policy.
All battery orders placed before 1pm Eastern Standard Time will be shipped same day! Orders placed after will be shipped next day. The approximate shipping times via GROUND to major cities across Canada are as follows:
Ontario and Quebec – Next day delivery (some rural areas may be two days)
East Coast – NS, NB, PEI – 2 days; NFLD – 4 days
Central Canada (Manitoba, Saskatchewan) – 2 – 3 days
Western Canada – 3 days to Calgary / Edmonton
NWT, YK – 6 days
BC - Next day

CUSTOM ENGRAVED SIGNS

Two exciting options available - **PLASTIC WITH PRE-PUNCHED HOLES** or **PLASTIC WITH ADHESIVE BACK**

• Custom made to your specifications - up to 432 square inches
• Seven different colour schemes available
• Comes complete with pre-punched corner holes or adhesive backs
• Service your non-traditional sign needs with our custom signs up to 24" x 18"

EXAMPLES:

PLASTIC WITH PRE-PUNCHED HOLES

FIRE DOOR KEEP CLOSED

WD40 loosens Rusted Parts. WD40 frees sticky mechanisms and penetrates to free up frozen or rusted metal parts and fasteners. WD40 keeps controls and linkages working freely.

Displaces moisture. WD40 gets under water, drives it off and keeps it off. WD40 is a non-conductor and can be used to dry out electrical and electronic equipment.

Stops Squeaks. WD40 finds and lubricates squeaks in hard-to-get-at mechanisms. WD40 is silicone-free, which means no messy, gummy residue.

Protects metal. WD40 lubricates and protects against moisture and corrosive elements.

PART#	DESCRIPTION
WD1011	11 oz. can
WD10	3.785 litres

WD40 – THERE IS ALWAYS ANOTHER USE.

WD1011   WD10

Lift Off® ADHESIVE REMOVAL effectively removes adhesives, chewing gum, grease, tar, and motor oil. 10.5 oz aerosol.

QDC	Quick Disconnect Coupler
AC1	Air Chuck
AVA	Air Valve with Cap

CON1   AVA

SBG1   QDC   AC1

COILED AIR HOSE are for blowing out valves, cleaning off work areas, etc. CH models are permanently coiled hoses, made from abrasion resistant nylon and fitted with brass fittings. Hoses come standard with ¼" NPT(M) fittings on both ends. Rated at 200 PSI. Note: Do not use for recharge line.

PART#	DESCRIPTION
CH12	12 ft Coiled Air Hose
CH25	25 ft Coiled Air Hose

CH12

AIR HOSE REELS are long lasting thanks to the top-quality materials that go into making them. The AHR33 is constructed from impact-resistant polypropylene, plus 33' of ¼" ID polyurethane mesh hose. There's also a swivel bracket that allows the AHR33 to be mounted in multiple locations. The AHR49 is even tougher - made of steel that's covered in a corrosion-resistant powder coating for extra-long life. It comes with 49' of ⅜" rubber hose. And, the AHR49 includes a multiposition ratchet lock, tension adjustment and a fullflow swivel that prevents leakage. A guide arm also cuts down on hose wear and tear, plus with nine adjustable positions, the reel can be mounted on the ceiling, floor or wall.

PART#	DESCRIPTION	DIMENSIONS
AHR49	Air Hose Reel, 49' Hose	19" X 8" X 20"

AHR49

NITROGEN REGULATOR AND ACCESSORIES

NITROGEN REGULATOR set-up for recharging of extinguishers. Regulator has a spring type (re-seating) safety relief, CGA580 inlet connection, ¼" NPT female outlet, high strength rubber diaphragm and a rugged all metal body. Comes with part number NITA and a one year factory warranty. Outlet pressure 0-500 PSI. Hose not included.

PART#	DESCRIPTION

T40	40 lbs. x 2 oz. Adjustable Spring Dial Scale

T100   T40

Heavy duty **UTILITY SCALE** with 18 gauge steel case, memory lock, carrying handle, zero adjustment knob and reinforced rib platform.

PART#	DESCRIPTION
US250	250 lbs. x 1 lb. Utility Scale

US250

ELECTRONIC DIGITAL SCALES for cartridge filling and inspection. Features 4 lbs. x 0.1 oz or 2000 gram x 2 gram capacity. Features tare, LCD digital display, automatic shutoff and made of high impact styrene construction. Operates on either a 9V battery or AC adapter (both sold separately). Measures 5" x 6½" x 1½" with a $5\frac{15}{16}$" x 4¾" platform.

PART#	DESCRIPTION
DKS3002	4 lbs. x 0.1 oz. Electronic Digital Scale

DKS3002

This **LEGAL-FOR-TRADE PORTION SCALE** is perfect when fast and easy portion control is required. Incorporating a portable wireless design, these scales feature over/under check weighing, removable stainless steel platforms, and adjustable auto shut offs. An automatic/semi-automatic zero-setting mechanism is standard. Scales operate on four D-cell batteries or an AC adapter (both sold separately).

PART#	DESCRIPTION
LTDS60	Legal-For-Trade 60 lb x 0.02 lb Digital Scale (4 D-Cell)
LTDSAC60	AC Adapter (For 60 lb Scale)

LTDS60

RECHARGE EQUIPMENT

This **3-WAY VALVE** provides an easy and safe method of venting pressure when charging dry chemical and other low-pressure fire extinguishers. After reaching the correct extinguisher pressure and installing the extinguisher's pull pin, a half turn of the 3-way valve handle instantly bleeds off the pressure between the **3WV** and the extinguisher (with minimal loss of nitrogen) for safe removal of the quick disconnect (**QDC**). Use the **4HN** nipple to attach the quick disconnect. Maximum pressure is 500 psi.

PART#	DESCRIPTION
3WV	3-Way ¼" Valve
4HN	¼" M x M Hex Nipple for 3-Way Valve
QDC	Quick Disconnect Coupler

3WV/4HN In Use
3WV
4HN
QDC

RUBBER MALLETS

PART#	DESCRIPTION
RM16	16 oz. Rubber Mallet

RM16

POURING BAGS FOR PAILS Controls flow of powder, helps keep dust down, easier to fill hoppers.

PART#	DESCRIPTION
PAILBAG	For Transferring Powder from Pails

PAILBAG

DISPOSAL COMFORT MASK for relief from nuisance and non-toxic dusts, powders and pollen. Lightweight with adjustable elastic head strap and metal forming strip over nose for comfort.

PART#	DESCRIPTION
RP9500	Disposable Dust Mask (Box of 50)

MASK

BLOW OUT BAG empties extinguishers in seconds without a mess saving time and money. Easy to use, place nozzle or hose into neck of bag, hold securely, release pressure slowly until empty. Velcro sealed across bottom making it easy to empty.
NOTE: DO NOT MIX CHEMICALS! NOT RECOMMENDED FOR RECLAIMING CHEMICALS.

PART#	DESCRIPTION
BBAG	Blow Out Bag

BBAG

FireTech's® EZ FILL SIPHON is not only easy but fast – transferring up to 3½ gallons of liquid per minute. The 6' clear hose is durable, flexible, non-toxic, and has a copper nipple that's anti-static and anti-spark for safety. Use to transfer liquids, including fuels oils, water, paint, and more. To operate, make sure the liquid to be transferred is higher than the empty container. Submerge the **EZ FILL SIPHON** and shake it to start the transfer.

PART#	DESCRIPTION
EZFILL	EZ Fill Siphon

EZFILL

CO2 RECHARGE EQUIPMENT

CO2 CHARGING

CO2 CHARGING LINE COMPONENTS

PART#	DESCRIPTION
CO1D	½" F x ¼" F CO2 Coupling
CO2	¼" F x ¼" F CO2 Coupling
FWSN	Fiber Washer for Swivel Nut (Pkg. of 25)
CO14P	Nylon "Snap In" Washer (Pkg. of 50)
*CA125	⅛" F x ½" M CO2 Charging Adapter
CA225	¼" F x ½" M CO2 Charging Adapter
CA375	⅜" F x ½" M CO2 Charging Adapter
CO11	½" F x ½" M CO2 Coupling
CO12	½" F Plastic Hand Nut
CO13	2½" Brass Nipple
FV25	Flip Valve ¼" F x ¼" F
F72194	Valve Stem
FVH	Flip Valve Handle
CO16	5 lb. CO2 Charging Adapter (Amerex 5lb. CO2)
CO17	Brass Swivel Nut
CO3	6' Charging Hose ¼" M x ¼" M
COC6	CO2 Charging Unit As Shown **NOW WITH 2 FLIP VALVES**
VHG	Valve Handle Grip for holding squeeze handle type valves in the open position

*Not Shown

NOTE: The shown adapters and components are only a partial list of items and equipment needed to safely refill carbon dioxide cartridges and cylinders. These adapters and components should be purchased and used **ONLY** by personnel who are thoroughly familiar with and understand the standards published in the Compressed Gas Association pamphlets G-6 and S-1.1, Code of Federal Regulations Title 49, Parts 100 thru 185 and who have received "hands-on" training under the direct supervision of someone experienced in cartridge refilling. If you lack the knowledge training or experience described above, do not attempt to refill carbon dioxide cartridges or cylinders. Instead, we recommend that you purchase either new cylinders and cartridges or have them refilled by an established service facility. **Failure to adhere to the above instructions could result in serious injury or death!**

CO2 CARTRIDGE RECHARGE EQUIPMENT

PART#	DESCRIPTION
CRA2	CO2 Cartridge Recharge Assembly As Shown (Does not include Bonnet & Stem)
RS81LH	Filling Bonnet for Ansul & General D/C CO2 Cartridge Extinguisher
RS82RH	Filling Bonnet for use with Ansul Systems Cartridge
OR211	O-Rings for Bonnets
RS87	Bushing Tool for use with Bonnets
OR111	O-Ring for RS87 Stem

*CAUTION
DO NOT USE FOR
RECHARGING NITROGEN
CARTRIDGES*
Bonnet & Stem Not Included

Master Metallic Compound for use on metal or plastic pipe. MMC prevents leaks, withstands pressure well above 6,000 PSI and temperatures up to 700°F. It seals against leakage of air, water, steam, gasoline and oils, natural or manufactured gases and almost all chemicals. **INCLUDES BRUSH APPLICATOR IN TOP.**

PART#	DESCRIPTION
MC2	Fire Extinguisher & Cylinder Valving Sealing 2 lb. Can Compound & Pipe Thread Sealing Compound

PAINTBALL RECHARGE KIT

Specially designed for paintball cylinders, this new **RECHARGE KIT** features a single 1,000 PSI WOG CO2 brass ball valve and CO2 pin depressor for safe filling and handling. **Warning:** This kit is for refilling paintball cylinders only. A scale must be used to insure a safe fill. For indoor use only.

PART#	DESCRIPTION
PBRKIT	Paintball Cylinder Recharge Kit

DRY CHEMICAL RECHARGE ADAPTERS, AIR VALVES AND QUICK DISCONNECT COUPLERS

Fire extinguisher **RECHARGE ADAPTERS**, air valves and quick disconnect couplers.

PART#	DESCRIPTION
RA11	Recharge Adapter (Amerex, Ansul, Badger, General, Pyrene, Strike, Diamond all, Buckeye, Flag 10-30 lb & New Pyrene), Stamped with AD24
RA16	Recharge Adapter (Amerex, Amerex A Vlv, Badger, General, Old Kidde, Flag 5 lb, New Pyrene), Stamped with AD21
RA36	Recharge Adapter (Amerex 270, 272, B260, B262), Stamped with AD36
A9492	Recharge Adapter (Amerex High Perf Models)
AD38*	Recharge Adapter Ansul Senry 2.5 lb Model A02S, A02SVB, Stamped with AD38
RA12	Recharge Adapter (Ansul Sentry 2.5 lb. & 5 lb. Coarse Thread - Small Valve), Stamped with AD22
AS440623	Recharge Adapter (Ansul Sentry 2.5-20lb-Year 2013+)
RA30	Recharge Adapter (All Ansul Sentry Units Except 2.5lb-Large Valve), Stamped with AD30
RA20	Recharge Adapter (Ansul, Buckeye, Pyrene 10 - 20 lb PDL Models, Kidde-Large Pro Line Units), Stamped with AD23
R04646	Recharge Adapter (Badger Extra Small Valve)
B4795	Recharge Adapter (Badger Extra Large Valve)
RA13	Recharge Adapter (Old Style Kidde Units), Stamped with AD25
RA17	Recharge Adapter (RC Ind. (Clip Type Nozzle), Stamped with AD26
RA19	Recharge Adapter (Kidde Nylon Valve with Nozzle), Stamped with AD27
RA14SET	Recharge Adapter (Fyr-Fyter, Buffalo, C-O-Two, Pyrene & Norris), Stamped with AD29
CON2	Male Quick Disconnect, ⅛"
RA22	Recharge Adapter (Kidde Nylon Valve w/Hose), Stamped with AD32
RA15	Recharge Adapter (Kidde Coarse Thread), Stamped with AD34
RA35	Recharge Adapter (Kidde Pro Line-Small Units, New Ansul Sentry), Stamped with AD35
RA10	Discharge Adapter (Badger & American LaFrance), Stamped with AD28 — **Discontinued**
RASET	Complete Set of Recharge Adapters – 11, 12, 13, RA14SET, 15, 16, 19, 20, 22, 30, 35, 36, AS440623
KCO2*	Kidde CO2 System Recharge Adapter cw/ OR110
AC1	Air Chuck
AVA	Air Valve with Cap
QDC	Quick Disconnect Coupler
CORE	Replacement Core for AVA, Pkg. of 50
DCA	Discharge Adapter for Cartridge Receiver (Left Hand Thread)
CRT	Core Removal Tool
F550130*	Recharge Adapter (Flag 10-30 lb H Models)

*Not Shown

HYDROTEST ADAPTERS

LOW PRESSURE HYDROTEST ADAPTERS

LOW PRESSURE HYDROTEST ADAPTERS for Portable Extinguishers and Restaurant System Cylinders.

PART#	DESCRIPTION
HTAA1	Hydrotest Adapter (Amerex, 5-20 lb brass valve, Badger & American LaFrance, Ansul 2.5-5 lb Small Valve, Pyrene PW HW16P)
HTAA2	Hydrotest Adapter (Amerex, Ansul, Badger General & Kidde Pressure Water)
HTAA3	Hydrotest Adapter (Amerex A Series & Ansul 2.5-5 lb. Small Valve)
A4892	Hydrotest Adapter (Cylinder Hose Opening for Amerex DC Wheeled Units)
HTA43	Hydrotest Adapter (Ansul Sentry)
HTA46	Hydrotest Adapter (Ansul Water & Wet Chemical Extinguishers)
HTAAN5	Hydrotest Adapter (Ansul, 5 lb. Cartridge Operated)
HTAAN10	Hydrotest Adapter (Ansul & General Cartridge Operated 10, 20 & 30 lb)
HTA12D	Hydrotest Adapter (Ansul Cartridge Operated Cylinder Only)
B21007876	Hydrotest Adapter (Badger Advantage) (Requires OR212 Sold Separately)
HTA44	Hydrotest Adapter (Badger Extra & American LaFrance, Large Valve)
HTA45	Hydrotest Adapter (Badger Extra Models 5 lb, Small Valve)
HTAB1	Hydrotest Adapter (Badger & American LaFrance, Older Models with 2⅝" Neck)
HTABU1	Hydrotest Adapter (Buckeye, All General Older Small Valve, Diamond & Strike 5-30 lb, Flag 10-20 lb)
HTAF4	Hydrotest Adapter (Flag PWS 25 F & Dry Chem PDC Models w/Fine Thread)
HTAF5	Hydrotest Adapter (Flag PWS 25 4 & Dry Chem PDC Models w/Coarse Thread)
HTAF1	Hydrotest Adapter (General 2.5-5 lb J, JH, LH Series & Flag 5 lb)
HTAG1	Hydrotest Adapter (General Older Models with 3¼" Neck)
HTAG2	Hydrotest Adapter (General PW WS 800B, LS800 B Models with 2¹¹⁄₁₆" Neck)
HTAG4	Hydrotest Adapter (General Dry Chemical 10, 20, 30 lb A, B, D, E Series)
HTAK1	Hydrotest Adapter (General & Kidde Small Valve, Diamond All, Strike all, Flag 10-20 lb)
HTAK4	Hydrotest Adapter (Kidde Older Dry Chem Models)
HTAK5	Hydrotest Adapter (Kidde LSPS, WPSW Pressure Water)
HTAK6	Hydrotest Adapter (Kidde PW, WPPN)
HTAK8	Hydrotest Adapter (Kidde 2.5- 6 lb Plastic Valve & Proline)
HTAK39	Hydrotest Adapter (Kidde 10 lb. RAP & TAP Plastic Valve)
HTASF2	Hydrotest Adapter (Strike First ⅞" valve-2.5 & 2.75 lb)
HTAFF2	Hydrotest Adapter (Old-Style Range Guard Systems & Fyr-Fyter Systems)
HTA41	Hydrotest Adapter (Pyro Chem Wet Systems)
HTA42	Hydrotest Adapter (Ansul R-102 System w/Internal Threads, UL300 Stainless Steel Cylinder)
HTAK3	Hydrotest Adapter (Kidde System & PyroChem Systems)
1G0249	Adapter to use HTA's with Getz Hydrostatic Test Equipment

ACCESSORY PARTS for Portable Extinguishers and System Cylinders.

PART#	DESCRIPTION
CRW1	Ansul Wrench for Cartridge Receiver D & E Models
14BV	Miniature Ball Valve (¼" Pipe Thread)
A5720	Hydrotest Adapter for CEH75

CARTRIDGE TEST ADAPTERS

High pressure hydrostatic **CARTRIDGE TEST ADAPTERS**. For cartridges with a diameter of 2" & over.

PART#	DESCRIPTION
HTAN1	Left-Hand Thread High Pressure Test Adapter for Ansul & General Cartridges, Flag & Pyrene
HTAN2	Right-Hand Thread High Pressure Test Adapter for Ansul & General Cartridges, Flag & Pyrene

HTA N1 N2

STAMP HOLDER AND STAMPS

TOOL HOLDER for holding steel stamps when stamping test dates. Saves fingers from being damaged. Will hold many other tools.

PART#	DESCRIPTION
HSH	Tool Holder

HSH

STEEL STAMP are manufactured to meet the most demanding industrial applications with an extra-heavy, extra-long shank and supporting bevel. They feature character identification, size, three thumb grooves and cut ¼" numbers.

PART#	DESCRIPTION
SSSET	Steel Stamp Set
MS0	Number 0 Steel Stamp
MS1	Number 1 Steel Stamp
MS2	Number 2 Steel Stamp
MS3	Number 3 Steel Stamp
MS4	Number 4 Steel Stamp
MS5	Number 5 Steel Stamp
MS6	Number 6 & 9 Steel Stamp
MS7	Number 7 Steel Stamp
MS8	Number 8 Steel Stamp

SS SET

PARTS BIN BOX. Great for storing o-rings, rivets, fusible links, etc.

CONDUCTIVITY, CYLINDER AND HYDROTEST LABELS

Metallic **CONDUCTIVITY TEST LABELS**. Bilingual. 100 per roll.

PART#	DESCRIPTION	W X H
CUCTL2	Custom Conductivity Test Label with Customer Name	3" x ¾"
CTL2	Blank Conductivity Test Label	3" x ¾"

CUCTL2

COMPOSITE CYLINDER TEST LABELS meet the requirements of Transport Canada for recording test information on composite cylinders. Sold per pkg of 50. Use our **5 MINUTE EPOXY** for applying over the composite test labels.

PART#	DESCRIPTION	Dia.
CRL50	Composite Cylinder Test Labels, Sold 50/pkg	2½"
5ME	5 Minute Epoxy	

CRL50 **5ME**

BRUSHES

BRUSHES for cleaning valves, threads, etc.

PART#	DESCRIPTION
VCB	Metal Bristle Cleaning Brush
BVCB	Brass Bristle Cleaning Brush for Aluminum
NB	Nylon Bristle Cleaning Brush
TB	Tooth Brush
NWB	Nylon Cleaning Brush
BWB	Brass Cleaning Brush
WB	Nylon Wire Brush
CWB	Industrial Grade Wire Brush

VCB **BVCB** **NB**

TB **NWB** **BWB**

WB **CWB**

FASTENERS

E-Z ANCHOR self drilling fastener requires no predrilling. Installs easily using a Phillips screwdriver, no other tools needed. Doesn't leave those big gaping holes when removed. Deep thread engagement for strength in ⅜" to ⅝" wallboard (sheetrock). Works with #8 screw **(no longer included)**.

PART#	DESCRIPTION
EZP	Metal Self Drilling Anchor 100/pkg (screws not included)

EZP **METAL E-Z ANCHORS**

E-Z TOGGLE self drilling toggle bolt requires no predrilling. Installs easily using a Phillips screwdriver, no other tools needed. Doesn't leave those big gaping holes when removed. Unique patented clamp replaces both ⅛" and ⅜" winged toggles. Deep thread engagement for strength in ⅜" to ⅝" wallboard (sheetrock).

PART#	DESCRIPTION
EZTOG	E-Z Toggle complete with screws, Pkg. of 50

EZTOG

TAPCON SELF TAPPING CONCRETE ANCHORS are the fastest way to secure wall brackets and cabinets to concrete. Just drill pilot hole and screw it in! No plastic or metal plugs needed, cuts its own threads into masonry. Holds strong in block, brick or poured concrete. Use the Condrive tool for easy installation.

PART#	DESCRIPTION
TAPCON	Tapcon Self-Tapping Anchors, Pkg. of 100 (1 Drill Bit included)

TAPCON

SELF DRILLING STEEL FASTENERS will self tap into ¼" to ½" steel. No drilling needed! Hex head #12 x 1¼" long milled self driller. A non-walking point with precise cutting edges and its unique design increases drilling performance and requires less end pressure.

PART#	DESCRIPTION
SA1	Self-Drilling Fastener, Pkg. of 100

SA1

TEFLON TAPE

PART#	DESCRIPTION
T480	Teflon Tape (½" x 480")

T480   **TEFLON TAPE**

GAUGE SERVICE EQUIPMENT

Pressurized water extinguisher **GAUGE TESTER** allows you to check gauge while unit is pressurized. Can also be used as a tire gauge. Rugged bronze bourdon tube and brass movement. Holds pressure until released. Complete with operating instructions.

PART#	DESCRIPTION
PWGT	Gauge Tester for Pressurized Water Extinguisher

PWGT

BUBBLES LEAK DETECTOR adheres to overhead surfaces and leaves no residue, dries clean and clear. Best way to check for gauge leaks! Patented self storing "Squirtubes" have small bores for dispensing small quantities. OK for CO2 nitrogen and halon. Meets MIL-L-25567BC specification.

PART#	DESCRIPTION
LD1	8 oz. Squirt 'n Bubbles Leak Detector

LD1

GAUGE WRENCH made of steel and fits most gauges.

PART#	DESCRIPTION
GWRENCH	Gauge Wrench

GWRENCH

TOOLS

CYLINDER INSPECTION

CYLINDER INSPECTION LIGHTS are great for inspecting the inside of cylinders. Both come with a protective cover that can be used as an extension, flexible shaft that can be bent to desired angle. Batteries included. The Krypton bulb will fit in either light.

PART#	DESCRIPTION
24CIL	24" Cylinder Inspection Light (Krypton Lamp)
16CIL	16" Cylinder Inspection Light (Standard Lamp)
110KRP	Krypton Replacement Bulb (Not Shown)
100STD	Standard Replacement Bulb (Not Shown)

24CIL

16CIL

INSPECTION MIRROR which telescopes from 5⅝" to 19½" and features an adjustable ⅞" Dia. mirror and magnetic end. The end is magnetized for retrieving those lost items from hard to reach areas and comes with pocket clip.

PART#	DESCRIPTION
IM	Inspection Mirror

IM

PLIERS

CHANNELLOCK® TONGUE AND GROOVE PLIERS feature right angle teeth to grip in all directions, undercut tongue and groove for adjustments that won't slip, reinforcing edge that minimizes stress breakage and PERMALOCK® fastener to eliminate nut and bolt failure.

PART#	DESCRIPTION
*TL440	12" Tongue and Groove Pliers
*TL442	12" Curved-Jaw Tongue and Groove Pliers
TL420	9½" Tongue and Groove Pliers
TL426	6½" Tongue and Groove Pliers

TL420

TL426

*Not Shown

PLIERS features perfectly mated cutters, heat treated to hold their edge and polished high carbon drop forged steel construction. CHANNELLOCK® slip joint pliers feature a wire cutting shear and PERMALOCK® fastener to eliminate nut and bolt failure. All pliers feature CHANNELLOCK BLUE® comfort grip handles.

PART#	DESCRIPTION
TL317	7½" Long Nose Pliers w/cutter
TL526	6" Slip Joint Pliers

TL317

TL526

VISE-GRIP® LOCKING PLIERS can be used for turning, cutting, tightening, clamping and twisting. Features hardened tooth design to grip from any angle, adjusting screw for exacting pressure and hold for repetitive use. Constructed of alloy steel and heat treated for toughness and durability. Pliers TLVG1 and TLVG3 feature a built-in wire cutter that cuts up to a ¼" bolt.

PART#	DESCRIPTION
TLVG1	7" Curved Jaw Vise-Grips® w/ Wire Cutter
TLVG2	7" Straight Jaw Vise-Grips®
TLVG3	6" Long Nose Vise-Grips® w/ Wire Cutter

TLVG1

TLVG2

TLVG3

CHANNELLOCK® LOCKNUT PLIERS are designed for quick, easy adjustment of electrical locknuts. Fits locknut sizes: ½", ¾", 1", 1¼", and 1½". The thin profile is ideal for use in tight/wire-confined electrical boxes. Spring-loaded handles lock for easy storage and the handle shape allows for both right- and left-handed use.

PART#	DESCRIPTION
TL960	Locknut Pliers

TL960

WRENCHES

TORQUE WRENCH (½" - 150 ft. lbs.) with dial in torque setting. Wrench indicates desired torque by feel and sound.

VW1

PART#	DESCRIPTION
TW	Reversible Ratchet Torque Wrench

SLIP JOINT VALVE WRENCH fits all manufacturer's CO2 valves. Makes de-valving easier with just one wrench needed. Made of heavy steel to last a lifetime.

PART#	DESCRIPTION
VW1	Slip Joint Valve Wrench

TW

CHANNELLOCK TOOLS

CHANNELLOCK® ADJUSTABLE WRENCHES feature chrome vanadium steel construction.

PART#	DESCRIPTION
TL806	6" Adjustable Wrench
TL810	10" Adjustable Wrench

TL806

TL810

Heavy-duty iron **PIPE WRENCHES** are cast from special steel alloy for long-lasting performance. Wrenches feature precision hardened, polished jaws and teeth for a tight grip on pipe.

PART#	DESCRIPTION
TL3912	12" Offset Pipe Wrench
TL3914	14" Offset Pipe Wrench

TL3914

MISCELLANEOUS TOOLS

CO2 HOSE CONTINUITY TESTER for testing the continuity of CO2 hoses per NFPA 10. **NOTE:** be sure to remove hose from extinguisher and place on non-conductive surface before testing.

PART#	DESCRIPTION
CHT	CO2 Hose Continuity Test **(BATTERIES NOT INCLUDED)**

CHT

CO2 HOSE CONTINUITY TESTER for testing the continuity of CO2 hoses per NFPA 10. This tester is a more rugged, pocket size tester than the CHT, no leads required. Complete with batteries. **NOTE:** be sure to remove hose from extinguisher and place on non-conductive surface before testing.

PART#	DESCRIPTION
NCHT	CO2 Hose Continuity Test

NCHT

O-RING REMOVAL KIT consists of the handle and four different tools in a handy vinyl storage pouch.

PART#	DESCRIPTION
ORRK	O-Ring Removal Kit

ORRK

WIRE CUTTER AND WIRING TOOL. Wire cutters feature perfectly mated cutters, heat treated to hold their edge and high carbon drop forged steel construction. Wiring tool features specially heat treated blades for long life. Both feature CHANNELLOCK BLUE® comfort grip handles.

PART#	DESCRIPTION
TL337	7" Wire Cutter
TL908	Wiring Tool

TL337   TL908

PERMANENT MARKING PENS for marking on metal, plastic, vinyl etc.

PART#	DESCRIPTION
PMP	Black Medium Permanent Marking Pen
UFMP	Black Extra Fine Permanent Marking Pen

UFMP
(SOLD PER PEN)

PMP

BUCKET TOOL MATE turns an empty bucket into a tool/supply carrier. Features 24 pleated pockets (17 outside-7 inside) leaving the center for larger bulky items like extension cords, drills, etc. Saves time by having all of your tools and supplies visible and within reach.

PART#	DESCRIPTION
JB24	Tool Mate 24 Pocket Carrier

JB24

The **LIGHTWEIGHT TOOL BELT** combines all features of expensive tool belts into one economical package. Engineered by professional tool users to hold the most widely used repair tools, this belt performs just like belts that cost two to three times more. Perfect for the extinguisher service person. No more loading your pockets with tags, punches, seals, rubber mallet, etc. Fully adjustable belt with quick release buckle. One size fits most! Tools not included.

PART#	DESCRIPTION
BELT1	Tool Belt

PARTS BIN BOX. Great for storing o-rings, rivets, fusible links, etc.

PART#	DESCRIPTION
LBOX	Parts Bin Box (Large)

BELT1

LBOX

HANDCARE PRODUCTS

HAND CLEANER FOR SHOP & TRUCKS

HANDCARE CLEANER is specifically formulated to gently remove a variety of soils and effectively cleanse hands. Hand cleaner is dermatologist-tested.

PART#	DESCRIPTION
G0955	½ gal. Orange Pumice Hand Cleaner with Pump Dispenser Medium Soils Disposable

G0955

HEADLIGHTS

LED HEADLIGHT

Energizer's Vision LED HEADLIGHT offers hands-free operation with two light modes that control brightness and runtime, making it up to four-times brighter than standard LEDs. It comes with a pivoting head, slide switch, and three AAA batteries. Impact resistant to 1 m. 1⅝". Blue. 100 Lumens; 7 hr Runtime, 30m Beam Distance.

PART#	DESCRIPTION
HDA32E	LED Headlight, Blue
ALK92	AAA Alkaline Battery

HDA32E

From **Streamlight®**, the **trident®** and **enduro® LED HEADLAMPS** provide superior lighting, while leaving your hands free. The **Trident Headlamp** features a super-bright xenon bulb with triple LEDs, 90º tilting head, and three-way lighting for short, medium, and long distances (with spot to-flood adjustment). The lightweight **Enduro Headlamp** features high and low lighting modes, a .5 watt high-flux LED, and o-ring sealed construction. Both headlamps are water resistant with scratch-resistant polycarbonate bodies and come with an adjustable elastic/rubber combo head strap for maximum stability.

PART#	DESCRIPTION
SL61049	Trident Xenon/LED Headlamp, Orange/Black/Yellow
SL61410	Enduro LED Headlamp, Black/Gray
ALK92	AAA Alkaline Battery

SL61400

SL61049

TW	Reversible Ratchet Torque Wrench

TW
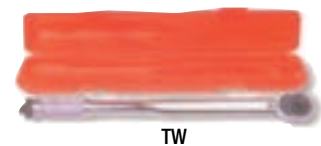

ANSUL CARTRIDGE SHIPPING CAPS

The above parts and accessories are only a partial list of item and equipment needed to safely refill carbon dioxide and nitrogen cartridges. These parts and accessories should be purchased and used only by personnel who are thoroughly familiar with and understand the standards published in the Compressed Gas Association pamphlets G-6 and S-1.1, code of federal regulations title 49, parts 100 thru 199 and who have received "hands-on" training under the direct supervision of someone experienced in cartridge refilling. If you lack the knowledge, training or experiences described above, do not attempt to refill either carbon dioxide or nitrogen cartridges. Instead, we recommend that you purchase either new cartridges or those refilled by an established service facility. Failure to adhere to the above instructions could result in death or serious injury!

PART#	DESCRIPTION
LHSC	Ansul LH Cartridge Shipping Cap
RHSC	Ansul RH Cartridge Shipping Cap

LHSC   RHSC

CARTRIDGE CAP WRENCH for removing caps from cartridge operated extinguishers.

CO2 HORNS, NIPPLES & HANDLES

WHEELED CO2 HORN ASSEMBLY

NOTE: The nipple/handle attaches to the female side of the valve assembly. The horn attaches to the other end of the nipple. The hose attaches to the male side of the valve.

PART#	DESCRIPTION
CWV	Valve Assembly for 50 and 75 lbs. CO2, ½" M x ⅜" F
CWH	CO2 Horn with Diffuser for CWV Valve
CWN	Galvanized Steel Nipple ⅜" x 18"
CWR	Rubber Handle for CWN Nipple

HAND HELD CO2 EXTINGUISHER HORNS & ACCESSORIES

Note: There are several different designs of 5 lbs. CO2 horns and discharge tubes. Carefully check the horn and tube to order the correct replacement parts. Also, some discharge tubes have a long diffuser tip and will not work with some horns. Test for flow of CO2 through the discharge tube and horn assembly to be sure.

PART#	DESCRIPTION
CH5	5 lbs CO2 Horn with Diffuser (for use with discharge tubes with no diffuser)
CH5D	5 lbs CO2 Horn (for use with discharge tubes with a built in diffuser)
CH10	Conical Horn with Brass Diffuser (for 10 lbs CO2 Extinguishers)
CH15	Conical Horn with Brass Diffuser (for 15 and 20 lbs CO2 Extinguishers)
RDH10	Rapid Discharge Horn & Handle for 10 lbs CO2 Extinguishers)
RDH15	Rapid Discharge Horn & Handle for 15 and 20 lbs CO2 Extinguishers)
F429184	FLAG 5 lbs CO2 Horn (10204)
AN429197	10 - 15 - 20, 50 lbs CO2 Horn (F1072)
RDC	Diffuser Clip for RDH CO2 Horn
RDD	Diffuser for RDH CO2 Horn
RH6	Rubber Handle for all Conical Horns
ESN7	¼" Diameter x 6" Long Galvanized Steel Nipple
HHANDLE	Rubber Handle for General Horns

HOSE HOLDER FOR DRY CHEMICAL & PRESSURE WATER

PART#	DESCRIPTION
A14776	Strap and Clip, 24" Long x ⅜" Wide (black)
A14778	Strap and Clip for 7" Diameter Extinguishers 24" Long x ½" Wide (black)

A14776

A14778

DRY CHEMICAL REPLACEMENT BANDS for 10-20 lbs. cylinders.

PART#	DESCRIPTION
DCUB10	Aluminum 10 lb. Dry Chemical Band
DCUB20	Aluminum 20 lb. Dry Chemical Band
SET3	Hardware for ABCB and DCUB Dry Chemical Bands. Includes Bar/ Nut/ Screw/ Clip.

SET3

DCUB10 / DCUB20
MAGNETIC HOSE RETAINER is designed specifically for ⅜" diameter hoses. The hose and nozzle assembly, with magnetic retainer, is easily pulled free from the shell when in use and simply reattached to the shell after discharge. Note the word "UP" faces toward the top of the extinguisher. For all ⅜" diameter hose. Fits Ansul Sentry Dry Chemical Models 5 and 10 and Cleanguard Model FE05 extinguishers.

PART#	DESCRIPTION
AN447635	Magnetic Hose Retainer

NEW

AN447635

CO2 REPLACEMENT BANDS for 10-20 lbs. cylinders.

PART#	DESCRIPTION
AUBC	Aluminum 10-20 lbs. Conical Discharge Horn Band
SET1	Hardware for AUBC Band (Bar/Nut/Screw)
ARD	Aluminum 10 - 20 lbs. Rapid Discharge Horn Band
SET2	Hardware for ARD Band (Spacer/Nut/Screw & Washer)

BEV5	2000/60 PSI CO2 Beverage Regulator
60G	60 PSI Replacement Gauge for BEV5
2000G	0-2000 PSI Replacement Gauge

BEV5

VEHICLE BRACKETS

HEAVY DUTY VEHICLE BRACKETS

HEAVY DUTY VEHICLE BRACKETS. Powder coated and proven MIG welded steel construction with catch pin to keep bracket from vibrating open. Pin must be pulled prior to extinguisher removal. VB9 is for large diameter cylinders up to 8" Bracket is 17½" Tall 8¼" Wide & 8" deep with an extra brace to support tall cylinders plus heavier ½" adjustment rod. **Now with Stainless Steel locking pin.**

PART#	DESCRIPTION
VB4	Running Board Bracket for 4" - 4½" Diameter Shells
VB5	Running Board Bracket for 4¾" - 5¼" Diameter Shells
VB6	Running Board Bracket for 5⅕" - 6" Diameter Shells
VB7	Running Board Bracket for 6¼" - 6¾" Diameter Shells
VB8	Running Board Bracket for 6¾" - 7¼" Diameter Shells
VB9	Running Board Bracket for up to 8" Diameter Shells
VB9BUC	Running Board Bracket for 7¾" - 8" Diameter Shells (Buckeye)
VPINSS	Stainless Steel "Hair Pin" Clip for Heavy Duty Brackets. (Package of 5)
RBP	Rubber Bumper Pad - Fits all Brackets (Not Shown)
VBT	Black Rubber Tether for pull-pin, VB and AG Brackets

VB-4 Fits most 5lb. Extinguishers

VB-5 Fits most 10lb. Extinguishers

VB-6 Fits FLAG 10lb. Extinguishers

VB-7 Fits most 20lb. Extinguishers

BOXED ONE PER CARTON

VB-8 Fits Large Diameter 20lb. Extinguishers

VB-9 Fits Large Diameter Extinguishers

ANSUL **GENERIC PNEUMATIC PISTON** for actuation of a mechanical gas valve. This item U.L. Classified to be used in ANSUL systems per NFPA 17 & 17A and the manufacturers installation instructions.

PART#	DESCRIPTION
PKA	Ansul GENERIC Style Pneumatic Piston Kit
PKAKIT	Replacement PKA Hardware Only

PKA

CHANNELLOCK® LOCKNUT PLIERS are designed for quick, easy adjustment of electrical locknuts. Fits locknut sizes: ½", ¾", 1", 1¼", and 1½". The thin profile is ideal for use in tight/wire-confined electrical boxes. Spring-loaded handles lock for easy storage and the handle shape allows for both right- and left-handed use.

PART#	DESCRIPTION
TL960	Locknut Pliers

TL960

MANUAL PULL STATION GUARDS

Compatible with **Ansul®** or older **Kidde** remotes, this **SURFACE-MOUNT ROUND REMOTE PULL GUARD** reduces false discharges of fire systems from accidental snagging of manual remote pulls on clothing, food carts, etc. Measures 2¾"D x 4⅝" Dia.

PART#	DESCRIPTION
PG1	4⅝" dia. Surface-Mount Remote Pull Guard

PG1

Compatible with **Ansul®** remotes, this **RECESSED ROUND REMOTE PULL GUARD** reduces false discharges of fire systems from accidental snagging of manual remote pulls on clothing, food carts, etc. Measures 1½"D x 4¼" Dia.

PART#	DESCRIPTION
PG2	4¼" dia. Recessed Remote Pull Guard

PG2

This **SURFACE-MOUNT REMOTE PULL GUARD** works with **Pyro-Chem®**, **Range Guard®**, **Kidde**, **Amerex®**, or **Buckeye** remotes, reducing false discharges of fire systems from accidental snagging of manual remote pulls on clothing, food carts, etc. Measures 5³⁄₁₆"H x 4⁵⁄₁₆"W x 3"D.

PART#	DESCRIPTION
PG3	4⁵⁄₁₆" dia. Surface-Mount Remote Pull Guard

PG3

This **SURFACE-MOUNT ROUND REMOTE PULL GUARD** is compatible with **Amerex®** or **Ansul®** remotes and reduces false discharges of fire systems from accidental snagging of manual remote pulls on clothing, food carts, etc. Measures 2⅝"D x 6" Dia. CO_2

PART#	DESCRIPTION
PG4	6" dia. Surface-Mount Round Remote Pull Guard

HOOD AND DUCT MOUNT FASTENERS AND TOOLS

BROOKS' QUICK MOUNT FASTENERS for hood penetration requirements. NFPA 96 requires any penetration in the hood exterior to be sealed with a listed device or by a liquid-tight, continuous external weld. The QMT is the *only* UL listed product for mounting hardware in the hood or duct. By using the QUICK MOUNT FASTENERS and SEAL FAST ADAPTERS, you can meet code without the use of welding equipment. Simple three step installation. Drill hole with a QDRILL, insert QMT through the hole, and clinch using a QMTOOL. Patent Pending.

PART#	DESCRIPTION	PKG/QTY
QMT	Quick Mount® Fastener	Pkg. of 10
QMS	¼" - 20 Screw for QMT	Pkg. of 100
QMTOOLM	Wrench Type Installation Tool	
QDRILL*	Quick Mount Drill Bit ⅜"

QUICK MOUNT FASTENERS
THE ONLY LIQUID TIGHT UL LISTED FASTENER

The **EVERGREEN QUIK-FASTENER** (patent pending) gives installers a UL/ULC listed method of fastening items to hoods and plenums in a kitchen ventilation system. The Quik-Fastener combines the thread producing features with a high temperature thread jamming coating. The friction from installing the screw activates the thread jammer to assure the grease tight seal. The package **includes a Double Ended ⅛" Pilot Drill Bit** with a 135 degree split point design for drilling through stainless steel. The **10mm Magnetic Power Driver** is used with most drill motors to d0rive in the screw into the ⅛" pilot hole.

PART#	DESCRIPTION
1404	Grease-Tite Seal Fasteners, Pkg/24

PHL LINKS™ **MCCABE® RESETTABLE BI-METAL FIRE LINK** is a UL 33 permanent replacement for fusible links and can provide heat detection signaling and operations. Utilizing a corrosion resistant, bi-metal configuration, the McCabe Link is always resettable and reusable after repeated testing – including routine system cycles or NFPA required periodic testing for safe functioning operating tests during inspection. Built-in delay reduces nuisance tripping is reduced (15-45 seconds vs. UL standard of 1 minute). Can be operated (repeatedly) three ways: Heat, Manually or Electrically.

PART#	DESCRIPTION
E5720H16524	McCabe 165°F, Thermal Electric Bi-Metal Link, 24V w/ 55 Watt Electric Heater
E5720H165120	McCabe 165°F, Thermal Electric Bi-Metal Link, 120V w/ 55 Watt Electric Heater

5720165	McCabe 165°F, Thermal Resettable Bi-Metal Link, Universal Link Base

ULC LISTED

E5720H16524

SR ELECTRO THERMAL LINK (ETL®) is a UL listed, dual-responsive fusible link and release device designed to substantially improve life safety and minimize property damage. It creates an instantaneous fusible link response and separation in the event of fire. The etl has a protruding cylinder to house the heating element and attachment wires, and to provides a means to attach a standard EMT conduit connector adapter. Load range 2 lbs. - 40 lbs. Manufactured by Globe.

PART#	DESCRIPTION
121165	ETL 165°F Fusible Link/Release Device

121165

LINK BRACKETS AND ADAPTER KIT

This **10" FUSIBLE LINK BRACKET** is UL classified for use in Pyro-Chem® and Range Guard® systems, per NFPA 17 and 17A.

PART#	DESCRIPTION
LBK1	10" Fusible Link Bracket, ULC Classified

LBK1

8" FUSIBLE LINK BRACKET is U.L. Classified for use in KIDDE systems per NFPA 17 & 17A.

PART#	DESCRIPTION
LBK2	8" Fusible Link Bracket, ULC Classified

LBK2

Offering better air flow around fusible links, this **10" HIGH STAND OFF FUSIBLE LINK BRACKET** is UL classified for use in Pyro-Chem® and Range Guard® systems, per NFPA 17 and 17A. And it will match up to a CP5 when coming through the top of a hood with a QSA12.

PART#	DESCRIPTION
LBK3	10" High Stand-off Fusible Link Bracket, ULC Classified, 1⅞" to Centre of Hole

LBK3

Facilitating the attachment of an Ansul® or Pyro-Chem® large-threaded corner pulley to an LBK3 fusible link bracket, this Link HOUSING ADAPTER KIT reduces the larger threads of the corner pulley to fit the smaller-diameter link bracket hole. No conduit or conduit fittings are required either. Kit comes with one reducing adapter and one steel nut.

PART#	DESCRIPTION
LHAK	Link Housing Adaptor Kit

LBK3

TEMPERATURE LABELS

Install **TEMPERATURE LABELS** on link brackets and take the guesswork out of fusible link installation. Dot turns black if temperature is reached, demonstrating that the link reacts to temperature as designed. Measures ½" square with ¼" dot in the center. Twenty-one labels per card.

PATCH SEAL

QP1   QP2   QP3

This **EMT FITTING** is custom made to fit all threaded hood seal adapters quickly and easily without force. Since zinc die cast fittings can melt when there's a fire, these fittings are made of zinc-plated steel. **NOTE:** The use of steel EMT Fittings inside a hood canopy guards against failure due to high heat and helps ensure proper fire suppression system operation.

PART#	DESCRIPTION
2232	Steel ½" EMT Fitting for Hood Seals/Link Brackets Will Screw into QSA2

CUSTOM MADE TO FIT!

2232

Quick-Patch for Corner Pulley

Modifying the kitchen fire suppression system often requires removing the corner pulley adaptors from the hood. With our new UL listed Evergreen **QUICK PATCH FOR CORNER PULLEY**, you simply install the new patch in the existing hood seal once the corner pulley is removed.

PART#	DESCRIPTION
QP1476	Quick Patch for ⅞" threaded Corner Pully Used on BECO, Buckeye & Range Guard Corner Pulleys
QP1478	Quick Patch for ¹⁵⁄₁₆" threaded Corner Pully Used on Ansul, Pyrochem Corner Pulleys

NEW

1476 / 1478

Blind Seals

The patented Evergreen Blind Seals are a unique solution allows installation of seals from one side of the penetration when access to the backside is not convenient or possible. The UL Listed Evergreen **BLIND SEAL** allows installation by a single installer from one side of the hood.

PART#	DESCRIPTION
BS1287	¾" Pipe Blind Compression Seal
BS1232	¼" Pipe Blind Quick-Seal
BS1272	¾" Pipe Blind Quick Seal

CORNER PULLEYS

BROOKS' high temperature, ball bearing **COMPRESSION CORNER PULLEY** is UL listed with the **Amerex** sytem and UL classifed for **Ansul, Kidde, PyroChem** and **Range Guard** systems per NFPA 17 amd 17A. Steel compression nuts eliminate stripping. Our pulleys have more threads per inch than most making it easier to install with no snap rings. They are pressed into place to stay when you remove the cover too.

CP3

LINK HOUSING ADAPTER KIT allows attachment of the **Ansul 423250AS** and **Brooks CP5** corner pulley to the **LBK3** hole link bracket. This kit reduces the larger threads of the corner pulley to fit the smaller diameter link bracket hole. No conduit or conduit fittings are required. Kit includes one reducing adapter and one steel nut.

SB698	Replacement Blades for HS690, Pkg. of 10

HS690

FILTER SPACERS

HOOD FILTER SPACERS allow you to fill in those few inches of plenum space not covered by standard size filters. Use them to fill that space that is not critical to the air flow and system detection. This will force the air flow through the filters as intended. DO NOT place fusible links directly above a spacer as there is limited air flow in this area. Hint: seal spacers together to cover those larger spaces with our HS1 Hood Caulk. Spacers are made of 20 gauge, 430 Stainless Steel with a brushed finish.

PART#	DESCRIPTION	W X L
FGF210	Filter Spacer	2" x 10"
FGF310	Filter Spacer	3" x 10"

DUCTMATE RECTANGULAR HI TEMP ACCESS DOORS

DUCTMATE® **DUCT ACCESS DOORS** provide easy access to grease ducts or high-temperature duct systems. They are simple to install and provide a leak-resistant seal. Just cut the hole and install. It's that easy! No measuring is required because a stick-on template is provided. And when an inspection is necessary, just unscrew the wing nuts to inspect - no special tools are required. Doors are rated up to 2300ºF and meet NFPA 96 requirements.

PART#	DESCRIPTION
D106F2GA	Duct Access Door 10" x 6"
D128F2GA	Duct Access Door 12" x 8"
D1814F2GA	Duct Access Door 18" x 14"
D2418F2GA	Duct Access Door 24" x 18"

MORE SIZES AVAILABLE - CALL FOR PRICING

DUCT ACCESS DOOR

FRYER PANELS

FRYER PANELS are made from stainless steel with deburred edges and have a large radius corner for protection. Two sizes available and fits most fryers. Meets NFPA 96 requirement, section 12.1.2.5, which requires that a plate be installed when a fryer is closer that 16" to surface flames on an adjacent appliance.

PART#	DESCRIPTION
FP1230	Fryer Panel, Stainless Steel 12" H x 30" (GSHLD)
FP1830	Fryer Panel, Stainless Steel 18" H x 30"

FRYER PANEL

STAINLESS STEEL CLEANER/POLISHER

SHEILA SHINE

STAINLESS STEEL CLEANER/POLISHER made by Sheila Shine will remove grease film, finger marks, cover scratches and leaves a protective coating that preserves the surface looking like new.

SSCP	Stainless Steel Cleaner/Polish (10.5 oz can)
SSCPQ	Stainless Steel Cleaner/Polish (1 quart)
SSCPG	Stainless Steel Cleaner/Polish (1 gallon)

SSCP   SSCPQ   SSCPG

GREASE COMB

The new 6" **FIRETECH™ GREASE COMB** is a must have for all hood system service techs, because it accurately measures the amount of grease buildup present on hoods, fans, ducts, and other surfaces. Now you can demonstrate to your customer when combustible contaminants are at dangerous levels. White plastic comb features depth gauge teeth clearly printed in microns for easy grease depth assessment.

PART#	DESCRIPTION	L X H X W
FTGC	Grease Comb	6" x 2⁵⁄₁₆" x ⁷⁄₈"

FTGC

FIRESTOP AND HOOD CAULK

FLAMESAFE FIRESTOP CAULK is for sealing penetrations in fire walls. UL Classified under "Fill or Cavity Materials". Produces a sandable, paintable surface with up to a 3-hour fire rating. Water based (no solvents or silicones).
NOT FOR HOOD USE!

PART#	DESCRIPTION
FS900	Flamesafe Caulk (10.3 oz. tube)
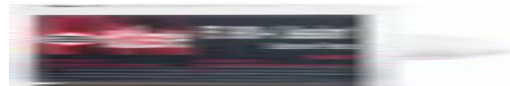

FS900

100% silicone **HOOD CAULK** (aluminum in colour) can be applied overhead up to 450°F. Meets FDA and USDA requirements. Does not meet NFPA requirement for sealing hood penetrations.

PART#	DESCRIPTION
HS1	Hood Caulk (10.3 oz. tube)

HS1

OEM LIQUID CHEMICAL

R-102 Kitchen System

PART#	DESCRIPTION
79372AS	Ansulex 3 Gal Wet Chemical For R-102 & K-Guard K01-2, K01-3
79656AS	Flushing Concentrate, 32 oz.

79372AS

Piranha Kitchen System

PART#	DESCRIPTION
423320AS	5 Gal PRX Wet Chemical For PIRANHA & K-Guard K01, K01-1
430182AS	6L PRX Wet Chemical For PIRANHA & K-Guard K01, K01-1
79656AS	Flushing Concentrate, 32 oz.

423320AS   **430182AS**

MICROSWITCHES

PART#	DESCRIPTION
423878AS	SPDT Microswitch, ANSUL
423879AS	DPDT Microswitch, ANSUL
423880AS	3PDT Microswitch, ANSUL
423881AS	4PDT Microswitch, ANSUL
428311AS	Alarm Initiating Microswitch, SPDT, ANSUL
MIC1	SPDT Microswitch, Generic, UL Classified
MIC2	DPDT Microswitch, Generic, UL Classified

423878AS   **423879AS**   **MIC1**

428311AS   **423880AS**   **MIC2**

NOZZLES

New **Streamlined** with **metal blow-off caps** are designed to mitigate potential grease buildup. Laser etching on three sides for improved nozzle identification. Metal blow-off caps included. Note: Will not use previous metal or rubber blow-off caps.

R-102 Kitchen System

PART#	DESCRIPTION
443319AS	1F Nozzle, R-102
443321AS	½ N Nozzle, R-102
443317AS	1N Nozzle, R-102
443323AS	1W Nozzle, R-102
443325AS	2W Nozzle, R-102
443327AS	3N Nozzle, R-102
443329AS	230 Nozzle, R-102
443331AS	245 Nozzle, R-102
443333AS	260 Nozzle, R-102
443335AS	290 Nozzle, R-102
443337AS	2120 Nozzle, R-102

443321AS   **443323AS**   **443329AS**   **443333AS**

443317AS   **443327AS**   **443331AS**   **443335AS**

Piranha Kitchen System

PART#	DESCRIPTION
443339AS	AP, Appliance/Plenum Nozzle, Piranha (44006)
443341AS	DL, Duct/Low Proximity Nozzle, Piranha (44009, 44334)

We are in the business of growing your business

NOZZLE BLOW-OFF CAPS, ADAPTORS AND AIMING DEVICES

Streamlined nozzles with metal blow-off caps are direct replacements for the older rubber blow-off cap nozzles.

NOTE: Rubber blow-off caps are to be replaced annually. Do not use on the new streamlined nozzles. When rubber blow-off caps are no longer available, you must use the Streamlined Nozzles.

PART#	DESCRIPTION
418569AS	Nozzle Swivel Adaptor
439876AS	New Aiming Device Adaptor
439877AS	Nozzle Aiming Device with New Adaptor
PC551265	Nozzle Aiming Device (No Adaptor)
77695AS	Rubber Blow-Off Caps, Pkg/50 (For Older Nozzles) (Replace Annually)
439848AS	R-102 Nozzle O'Ring, Pkg/25 (For New Streamlined Nozzle)
439861AS	Metal Blow-Off Caps for Streamlined Nozzle, Pkg/10
433208AS	CB Metal Blow-Off Cap, Pkg/10

77695AS

418569AS

433208AS

Dow Corning® **SILICONE GREASE NO. 111** is recommended by Ansul for use with rubber and metal blow-off caps on discharge nozzles, protecting both caps and nozzle orifices. Re-application required at each semi-annual maintenance examination.

PART#	DESCRIPTION
A78112	Nozzle Lubricant, Dow Corning Silicone Grease No. 111

A78112

DETECTORS AND PARTS

PART#	DESCRIPTION
435547AS	Series "Scissor"-Style Detector Kit
435546AS	Terminal "Scissor"-Style Detector Kit
435545AS	Replacement Linkage Scissors, Stainless Steel

435547AS   435545AS

Facilitating the attachment of an Ansul® or Pyro-Chem® large-threaded corner pulley to an LBK3 fusible link bracket, this Link HOUSING ADAPTER KIT reduces the larger threads of the corner pulley to fit the smaller-diameter link bracket hole. No conduit or conduit fittings are required either. Kit comes with one reducing adapter and one steel nut.

PART#	DESCRIPTION
LHAK	Link Housing Adapter Kit

CORNER PULLEYS

PART#	DESCRIPTION
423250AS	Ansul Corner Pulley, Compression Type
415670AS	Ansul Set Screw Corner Pulley
CP5	ULC Classified Compression Corner Pulley, ½" EMT
CP3	3-Way Corner Pulley

CP5   CP3

GAS VALVES AND ACCESSORIES

ANSUL Mechanical Gas Valves are ULC listed for use in ANSUL SYSTEMS per NFPA 17 & 17A. The largest available is 3". Complete with Piston Kit Assembly. Ansul Valves include the actuator cylinder, order 15733AS separately for the ASCO valves.

PART#	DESCRIPTION
GVB55598	Gas Valve, Mechanical, ¾" ANSUL
GVB55601	Gas Valve, Mechanical, 1" ANSUL
GVB55604	Gas Valve, Mechanical, 1¼" ANSUL
GVB55607	Gas Valve, Mechanical, 1½" ANSUL
GVB55610	Gas Valve, Mechanical, 2" ANSUL
GVB25937	Gas Valve, Mechanical, 2½" ANSUL
GVB25938	Gas Valve, Mechanical, 3" ANSUL
15733AS	Pneumatic Piston Kit (Ansul)
416018AS	Cocking Lever, Mechanical Gas Valve

GV55607

ANSUL GENERIC Pneumatic piston for actuation of a mechanical gas valve. This item U.L. Classified to be used in ANSUL systems per NFPA 17 & 17A and the manufacturers installation instructions.

PART#	DESCRIPTION
PKA	Ansul GENERIC Style Pneumatic Piston Kit
PKAKIT	Replacement PKA Hardware Only

PKA

REMOTE PULL STATIONS AND ACCESSORIES

PART#	DESCRIPTION
434618AS	Mechanical Pull Station w/o Cable
435960AS	Mechanical Pull Station with 50 ft Cable
435726AS	Replacement "Pull" Tabs, Pkg/10
ASRP	Ansul Generic Remote Pull
RPTI	Stainless Steel Trim
RPBOX	Non-Chrome Remote Pull Junction Box
ARBOX	Chrome Remote Pull Junction Box
ASBR	Ansul Style Remote Break Rods, 10/Pkg

ASRP   ARBOX   ASBR

FLEXIBLE CONDUIT AND ACCESSORIES

PART#	DESCRIPTION
434525AS	Flexible Conduit, 500'
435959AS	Flexible Conduit w/ Wire Rope, 500'
435979AS	Flexible Conduit Strain Relief, Pkg/50
434347AS	Flexible Conduit Inserts, Pkg/50
436150AS	P-Clips, Pkg/50
436063AS	Conduit Offsets, Pkg/6

We are in the business of growing your business

ANSUL SYSTEM ACCESSORIES

PART#	DESCRIPTION
79318AS	Regulator, 100 PSI, Mini-Bulk, Actuation Pressure
417911AS	Bursting Disc, (R-102) Pkg/10
416970AS	Bursting Disc Union Assembly
AS56909	Collar O-Ring, System Tank
68800AS	Vent Plug
418511AS	Hose/Grommet Package

417911AS

416970AS

R-102 BURSTING DISCS are installed to prevent extinguishing agents from entering the pipe during extreme temperature variations. Pkg/10.
NOTE: R102BDA (compares to Ansul) is for R-102 wet chemical systems only. Disc Burst Pressure 20-45 PSI.

PART#	DESCRIPTION
R102BDA	R-102 Bursting Disc, Generic Ansul-Type, Pkg/10

U.L. Classified ANSUL Generic aluminum bursting disc with soft vinyl washer. **For Dry Systems Only.** Disc Burst Pressure 75-105 PSI.

PART#	DESCRIPTION
BDA	Generic Ansul Aluminum Burst Disc for Dry Chemical Systems Only

BDA

SERVICE TOOLS

PART#	DESCRIPTION
441041AS	Ansul Cocking Lever with Lock Bar
441042AS	Ansul Short Cocking Lever and Bar
14985AS	Ansul Lock Bar (only)
438031AS	Ansul Locking Pin
416018AS	Cocking Lever, Mechanical Gas Valve
TL915	System Linkage Pliers (Locking)
TL910	System Linkage Pliers (Non-Locking)
EZFILL	Liquid EZ-Fill Siphon Tube
HTA42	Hydro Adaptor, R-102 w/Internal Threads, UL300 Stainless Steel Cylinder

NOZZLES AND ACCESSORIES CONTINUED

Industry Guard Dry Chemical

PART#	DESCRIPTION
B100005	Total Flooding (TF) Nozzle
B100006	Duct/Plenum (DP) Nozzle
B100037	Three-Way Nozzle (Pit / Tunnel or Plenum / Stack Interface)
B844258	Low Overhead Nozzle
B259270	High Overhead Nozzle
B259072	Tankside Nozzle
B100050	Flow Restrictor, ¾" NPT, for 2-nozzle in-line vehicle booth systems
B100051	Flow Restrictor, 1" NPT, for 4-nozzle in-line vehicle booth systems
B06-250099-067	Replacement Cap for Total Flooding & Three-Way Nozzles
B264742	Replacement Cap for Duct/Plenum Nozzle
B06-235348-001	Replacement Cap for Tankside Nozzle

CONTROL EQUIPMENT

UCH UNIVERSAL CONTROL HEAD FOR WET & DRY CHEMICAL SYSTEMS

PART#	DESCRIPTION
120099RG	Range Guard UCH Control System, includes: (1) 120042KR SVA, (1) 120043KR System Cartridge, (1) 120044KR Test Cartridge, (1) 120058KR EMT Connector Kit, (1) 120039KR SPDT Microswitch Kit, (1) 120039501KR SPDT Microswitch Kit
120045KR	High Pressure Hose, 7.5" Length (Required for cylinder mounted control head)
120045002KR	High Pressure Hose, 24" Length
120045003KR	High Pressure Hose, 60" Length
100034KR	Solenoid Kit (Electric Actuator), 24 VDC, UCH, XV Control
120039KR	Microswitch Kit, SPDT, solid color pigtails, UHC, XV Control
120039501KR	Microswitch Kit, SPDT, striped color pigtails, UCH, XV Control
120047KR	Microswitch Kit, SPDT, Terminal Type, Alarm / Release, XV, UCH Control
120058KR	EMT Connector Kit (EMT Connector & O-Ring, 3 sets) (must be used with Dry Chemical System)
B100035	Actuation Delay for Dry Chem Systems Only (required for Vehicle Paint Booth Systems) Includes (1) 120045KR 7.5" High Pressure Hose
B100038	Rebuild Kit for Actuation Delay
97108KR	Keeper Pin (UCH and A+)
120071KR	Flat Gasket for UCH Valve Body, Pkg/25
1419239KR	O-Ring for UCH or A+ Piercing Pin
120070KR	Piercing Pin w/O-Ring for UCH Valve Body, Pkg/10
120046KR	UCH, XV Valve Body Rebuild Kit, Includes: (1) Flat Gasket, (1) UCH Piercing Pin with O-Ring, (1) Retaining Ring, (1) Pin/Gasket Service Label
87120072KR	UCH Valve Body Update Kit, Includes: (1) Cam, (1) Flat Gasket, (1) UCH Piercing Pin with O-Ring, (1) Retaining Ring, (1) Upgrade Label
60120048RG	UCH Replacement Cover & Handle Assembly

120099RG

CONTROL EQUIPMENT CONTINUED

A+ CONTROL BOX FOR WET CHEMICAL SYSTEMS ONLY

PART#	DESCRIPTION
60-120010-001	Range Guard A+ Control Box Assembly, includes: (1) 120042KR SVA, (2) 06-235557-001 CO2 Cartridges, (2) Set screws, (1) Grommet, (1) Cover Label, (1) 60-9197142-000 Exhaust Fan Caution Label
97227KR	Microswitch, SPDT, A+, KRS-50
97228KR	Microswitch, DPDT, A+, KRS-50
97108KR	Keeper Pin (UCH and A+)
197214KR	Flat Gasket for A+ Valve Body, Pkg 25
1419239KR	O-Ring for UCH or A+ Piercing Pin
197215KR	Piercing Pin w/O-Ring for A+ Valve Body, Pkg/10
9197210KR	Valve Body Sub-assembly (A+), Includes (assembled): (1) Lever, (1) Valve Body, (1) Flat Gasket, (1) Piercing Pin, (1) O-Ring
9197202KR	Spring (A+)
97220KR	Cable Tension Block Assembly (A+)

97220KR

ACTUATION CARTRIDGES

System and Test cartridges for Kidde and Range Guard®. Actuator cartridges and o-rings must be periodically replaced in accordance with the Kidde or Range Guard® manual. Refer to manual for replacement intervals and installation instructions. TIP: Make sure to weigh cartridge before installation.

PART#	DESCRIPTION
120043KR	Nitrogen System Cartridge (UCH, XV), 236.8 grams
120044KR	Nitrogen Test Cartridge (UCH, XV) (not for use with Actuation Delay, Full Discharge or Puff tests)
PCCO2	12 gm CO2 System/Test Cartridge (A+, KRS-50), Pkg/3

OLDER RANGE GUARD PARTS

UL classified Range Guard®-style **MICROSWITCHES** (for older control heads) come complete with wiring harnesses and hardware.

PART#	DESCRIPTION
MIC4	Range-Guard Style SPDT Microswitch
MIC5	Range-Guard Style DPDT Microswitch
MIC6	Range Guard® & Kidde-Style SPDT "A+", KRS-50, Series Microswitch
MIC7	Range Guard® & Kidde-Style DPDT "A+", KRS-50, Series Microswitch

MIC4

MIC5

MIC7

MIC7

PART#	DESCRIPTION
VSRG	Range Guard® Valve Stem (For Old RG Cylinder)
OR45	O-Ring, Ring Nut (00061)

VSRG

BRASS FLARE FITTINGS

BRASS FLARE FITTINGS are for system installations and meet SAE J513, as specified in the manufacturer's manual.
NOTE: Tees and connectors do not include flare nuts.

PART#	DESCRIPTION
FC25	¼", 45° Flare x ¼" NPT Male Connector
FN25	¼", 45° Flare Nut
FT25	¼", 45° Flare Tee

FC25

FN25

FT25

PYRO-CHEM KITCHEN KNIGHT SYSTEM PARTS

ACTUATION CARTRIDGES

CO2 ACTUATOR CARTRIDGES are UL classified for Pyro-Chem and, along with O-rings, must be periodically replaced in accordance with the Pyro-Chem® manual. Refer to manual for replacement intervals and installation instructions. TIP: Make sure to check cartridge weight before installation.

PART#	DESCRIPTION
LGPC	16 gram Actuator Cartridge, Pkg/3
PC55531	O-Ring, Actuator Cartridge

LGPC

OEM LIQUID CHEMICAL

PART#	DESCRIPTION
PC300	Pyrochem 3 Gal Wet Chemical
PC553176	Pyrochem 6 L (1.6 Gal) Wet Chemical
79656AS	Flushing Concentrate, 32 oz.

PC300   **PC553176**

MICROSWITCHES

PART#	DESCRIPTION
PC550227	SPDT Microswitch, Old Style
PC550237	DPDT Microswitch, Old Style
PC551154	SPDT Microswitch
PC551155	DPDT Microswitch
PC551156	3PDT Microswitch
PC551157	4PDT Microswitch
PC550077	Alarm Initiating Microswitch, SPDT

You can stack (2) MIC1's to make a DPDT. For more than two switches, use OEM models. MIC1 is for Pyro-Chem MCH3 head.

PART#	DESCRIPTION
MIC1	SPDT Microswitch, Generic, UL Classified

MIC1

NOZZLES

PART#	DESCRIPTION
418569AS	Swivel Adaptor (423572)
PC551026	1L Nozzle w/ Cap
PC551027	2L Nozzle w/ Cap
PC551028	2H Nozzle w/ Cap
PC551029	1H Nozzle w/ Cap

DETECTORS AND PARTS

PART#	DESCRIPTION
PCFLH	Fusible Link Hanger
PC550131	FLK-1 Link Bracket Kit, 10"
PC550132	FLK-1A Link Bracket Kit, 8"

PCFLH

This 10" **FUSIBLE LINK BRACKET** is UL classified for use in Pyro-Chem® and Range Guard® systems, per NFPA 17 and 17A.

PART#	DESCRIPTION
LBK1	10" Fusible Link Bracket, ULC Classified

LBK1

Offering better air flow around fusible links, this 10" HIGH STAND OFF FUSIBLE LINK BRACKET is UL classified for use in Pyro-Chem® and Range Guard® systems, per NFPA 17 and 17A. And it will match up to a CP5 when coming through the top of a hood with a QSA12.

PART#	DESCRIPTION
LBK3	10" High Stand-off Fusible Link Bracket, ULC Classified, 1⅞" to Centre of Hole

LBK3

Facilitating the attachment of an Ansul® or Pyro-Chem® large-threaded corner pulley to an LBK3 fusible link bracket, this Link HOUSING ADAPTER KIT reduces the larger threads of the corner pulley to fit the smaller-diameter link bracket hole. No conduit or conduit fittings are required either. Kit comes with one reducing adapter and one steel nut.

PART#	DESCRIPTION
LHAK	Link Housing Adapter Kit

CORNER PULLEYS

PART#	DESCRIPTION
423250AS	Ansul Corner Pulley, Compression Type
415670AS	Ansul Set Screw Corner Pulley
CP5	ULC Classified Compression Corner Pulley, ½" EMT
CP3	3-Way Corner Pulley

DESCRIPTION	Auto-Fill Station	Total Wheeled Unit Fill System	Universal Wheeled Fire Extinguisher Service Kit	Optimum Retrofit Kit for SV1 Console
SPECS	• Auto-Fill Station comes with scale platform, fill cone hold down device, scale indicator, and auto-fill console. Can be used with existing VacuFill systems • Increase productivity and improve fill weight accuracy • Comes standard to auto-matically fill 5, 10, and 20 lb extinguishers. Other sizes can be filled by turning the switch to Manual. (2 kg, 4 kg, and 9 kg extinguishers)	• Fast • Empties A 50# Container Of Chemical In Less Than 30 Seconds • Mobile Or Shop Use • Operates Via Gravity • Quick/Clean Fill Process • BUCKET NOT INCLUDED	• Necessary Fittings Adapters and Components • Fits Most Models and Sizes of Wheeled Units • Checks Regulators for Proper Dead Set • Checks Regulators for Minimum Flow • Clears Siphon Tubes and Agent Hose Assemblies • Properly Verifies Nitrogen Cylinder Pressure • Performs Operational Checks on Hose Assemblies, Gas Tubes, Nozzle Valves, Safety Relief's and Nitrogen Cylinders • Pneumatic Tire Inflation • Agent Hose Assembly Operational Integrity • Agent Hose Assembly Clearing • Nozzle Valve Operational Integrity • Nozzle Valve Leakage • Gas Tube Assembly Integrity • Agent Cylinder Safety Relief Integrity	• Converts Your Standard Single Control Console to an Optimum to fill • **Extinguishers fill up to 2X faster** • Kit Fits SV1 50 Console (9G58836) • Kit Fits SV1 100 Console (9G58616) • Kit Fits SV1 150 Console (9G58619) • Includes All the Parts Required to Change the Inside of the Console

RECHARGE EQUIPMENT

3WV/4HN In Use

ITEM#	3WV
DESCRIPTION	3-Way ¼" Valve
SPECS	This **3-WAY VALVE** provides an easy and safe method of venting pressure when charging dry chemical and other low-pressure fire extinguishers. After reaching the correct extinguisher pressure and installing the extinguisher's pull pin, a half turn of the 3-way valve handle instantly bleeds off the pressure between the **3WV** and the extinguisher (with minimal loss of nitrogen) for safe removal of the quick disconnect (**QDC**). Use the **4HN** nipple to attach the quick disconnect. Maximum pressure is 500 psi.

ITEM#	3G0128	3G0080
DESCRIPTION	Workbench, Shop Package	Workbench with Wall, Shop
SPECS	• Includes Workbench as shown, 150 lb (68 kg) Dry Chemical Fill System, 110 lb (50 kg) Digital Scale, Airline Hose & Gun, Pneumatic Cylinder Vise, Plastic Tool Holder • Door on left opens to two pull out drawers for o-ring and valve stem kits • Workbench can be sold separately and customized to fit your needs Workbench shown has following dimensions: • Workbench 63" Wide x 35" High x 23" Deep (160 cm wide x 88.9 cm high x 58.4 cm deep) • Wall above bench 66" Wide x 29" High (167.6 cm wide x 73.7 cm high) • 5 larger drawers and 2 smaller drawers inside door • ASSEMBLY REQUIRED	• Door on left opens to two pull out drawers for o-ring and valve stem kits Workbench shown has following dimensions: • Workbench 63" Wide x 35" High x 23" Deep (160 cm wide x 88.9 cm high x 58.4 cm deep) • 5 larger drawers and 2 smaller drawers inside door

3G0126

3G0127

ITEM#	3G0126	3G0127
DESCRIPTION	Workbench 1 Drawer Pkg Full Size Cargo Van	Workbench 1 Drawer Pkg Compact Cargo Van
SPECS	• Includes Workbench and Equipment as shown: Handwheel Vise, regulators, recharge line, standard 110 lb (50 kg) digital scale, air line with gun, 100 lb (45 kg) Dry Chemical Fill System, magnetic tool holder • Workbench can be sold separately and customized to fit your needs • Equipment options can be customized • Ideal for rear facing in full sized cargo van or pickup truck installation • Overall Dimensions: 52" Wide x 20" Deep x 38" High (132.08 cm x 50.8 cm x 96.52 cm)	• Includes Workbench and Equipment as shown: Handwheel Vise, regulators, recharge line, standard 110 lb (50 kg) digital scale, air line with gun, 100 lb (45 kg) Dry Chemical Fill System • Workbench can be sold separately and customized to fit your needs • Equipment options can be customized • Ideal for rear facing in Transit Connect or similar sized vehicle • Overall Dimensions: 47.25" Wide x 20" Deep x 38" High (120.012 cm x 50.8 cm x 96.52 cm) • The one drawer is 11" Wide (27.9 cm)

Steel Fire 800.387.9555

2G0384

3G0125

ITEM#	2G0384	3G0125
DESCRIPTION	Workstation With Slide Out, No Equipment	Workstation With Slide Out and Equipment
SPECS		• Ideal for full sized cargo van or pickup truck installation • All Equipment shown is included • Workbench with 100% Full Extension Slide - 1,000 lb (453 kg) Capacity • Attractive Anodized Aluminum Construction • Up to 1000 lb (453 kg) weight rating • 100% Extension • Easy access release handle • Lighter than comparable steel slides • Corrosion resistant • Overall Dimensions: 60.25" Wide x 22.75" Deep x 46.25" High (153.04 cm x 57.79 cm x 117.48 cm)

2G0257

ITEM#	2G0257
DESCRIPTION	Van Slider 1000 lbs Full Extension
SPECS	Aluminum cargo slides feature unsurpassed user function as well as an aesthetic design that compliments any vehicle. Manufactured of anodized aluminum extrusion and stainless steel components, these industrial slides offer a corrosion resistant alternative. Rolling resistance is kept to a minimum by using a revolutionary urethane roller system that allows effortless movement and a weight rating of up to 1000 lbs. (453 kg) at full extension. A limited lifetime warranty is included with all slides. • Attractive Anodized Aluminum Construction • Up to 1000 # weight rating (453 kg) at 100% Extension • Easy access release handle • Lighter than comparable steel slides • Corrosion resistant • Overall Dimensions: 60" Wide x 21" Deep x 4.5" High (152.4 cm wide by 53.35 cm deep by 11.43 cm high)

DESCRIPTION	Replacement Check Stem Kit	Hand Hydrostatic Test Pump	Test Cage	Calibratable Gauge for HTP1000	1000 PSI Gauge for HTP1000	10 ft High Pressure Hose
SPECS	• Replacement check stem kit for HTP1000. This kit includes a pair of poppet valves.	• Designed for use in testing pressure vessels • Efficient check stem • Stainless steel piston • Cast aluminum body • 0 - 1000 PSI gauge • Shipping weight 14 lbs.	• Test Cage manufactured to NFPA 10 specifications. Durable red powder paint finish, 13 gauge steel mesh with 11 gauge steel frame & mounting holes on the bottom. The top of the cage has a 1½" hole for the test hose and the door is on hinges with a latch for easy access. Shipping weight is 29 lbs. Measures 12½" x 12½" x 31½"	• Calibrated gauge for use with Hydrostatic Test Pump (HTP1000)	• Replacement 1000 PSI guage with Hydrostatic Test Pump (HTP1000)

CDHDCD

HE1500W

3G0008

3G0101

ITEM#	CDHDCD	HE1500W	3G0008	3G0101
DESCRIPTION	Heavy Duty Cylinder Dryer	Heating Element for CDHDCD	Cylinder Dryer Rack	Compact Cylinder Dryer
SPECS	• Heavy duty shop cylinder dryer rack. Unit comes with Blower and is pre-wired to be hooked up to a 120V power source. The dryer is 120V 60 Hz. • **Now with ball valves to isolate drying parts to increase efficiency of drying** • Length: 86" Width: 28½" Height: 21¾" • Ship Weight Approx. 150 Lbs.	• Heavy duty long life heating element for CDHDCD dryer.	• Cylinder Dryer Rack • Lightweight for UPS shipping • Drying ports can be isolated using ball valves • First drying port can be disconnected by ½" (1.27 cm) quick connect • Wheeled Unit Hose with adapter can then be dried on first port • Blower 3G0094 Sold Seperately	• This unit has our economy hot blower (3G0094) mounted inside. It can be used in a portables service truck or small shop • Temperature Controlled with Safety • 120 Volts A/C • 1 HP • 95 CFM

3G0133

3G59327

SSPTG1000

CAHTG

ITEM#	3G0133	3G59327	SSPTG1000	CAHTG
DESCRIPTION	Digital Gauge, Low Pressure Hydro-Tester	Dual Gauge Pressure Test Assembly	1000 PSI Certified Test Gauge	Calibrated Gauge for HTP1000
SPECS	• Digital Gauge 0-800 Digital with Certification for low pressure hydro tester. • 0.25% Accuracy • Gauge is approved to test cylinders between 200-727 PSI • Meets all NFPA and DOT requirements • 20 Minute shut off 9 Volt Battery operated • To calibrate gauge please notify us when ordering (CALIBRATION -#1G0239)	• (2) 4½" 0-1100 PSI mirrored dial gauges • 11 Point calibration certificate included • Gauge accuracy of ¼% full scale value (working) • Gauge accuracy of ¼% full scale value (master) • Dual 45 degree gauge block design for easy readability • Air bleed valve and drain line in top of gauge block	The certified test gauge for hydrostatic testing of low-pressure cylinders (required by NFPA 10). An additional gauge should be used as a master gauge for a daily system check as required by NFPA 10. Gauge is calibrated and certified prior to shipment. • 0-1,000 psi stainless steel gauge • 3½" Dial polycarbonate window • ¼" NPT bottom connection fits HTP Test Pump • Rated -40˚F to +200˚F dry	• Calibrated gauge for use with Hydrostatic Test Pump (HTP1000)

CO2 TRANSFER PUMPS & CLEAN AGENT SYSTEMS

4G0010

4G59274

4G59578

ITEM#	4G0010	4G59274	4G59578
DESCRIPTION	CO2 Transfer Pump	HFC-227 Recovery/Recycle System	Tank Rec 50 lb Y-Valve Complete
SPECS	• For use to pump CO2 from High Pressure CO2 supply cylinders or tanks • Operated by Compressed Air or Nitrogen • Comes with 4 CO2 Adapters • 10 Feet (3.048 m) of ⅜" (0.9525 cm) White Poly Tubing • 6 Feet (1.83 m) of ½" (1.27 cm) Supply Line Hose • 6 Feet (1.83 m) of ¼" (0.635 cm) Fill Line Hose • Single Action Pump • 130 PSI AT 13 CFM • Ship Weight 40 lbs	• Designed with the operator in mind • 99% transfer efficiency • Transfers liquid, vapor and nitrogen • HFC-227 Liquid transfer rate of 16 lbs per minute maximum • HFC-227 vapor transfer rate of 2 lbs per minute maximum • Filters particulate matter • Indicates moisture • Operates on compressed air pressure between 100-120 PSI at a minimum of 13CFM • Space saving design • Includes (4) adapters • Compatible with FE 25, FE 125, Halon 1301, FM 200, Novec 1230	• Clean agent recovery tank • 47.6LB water capacity • DOT-RATED 4BW400 • Comes with adaptors • FE-36/HALOTRON 1 • HALON 1211 • NOVEC • Other sizes available from 15-1000 lbs

4G59456

4G59543

ITEM#	4G59456	4G59543
DESCRIPTION	Wall-Mount High/Low CO2 Pump	Compressed Air Dryer
SPECS	**For use with low pressure supply bulk tanks only** • Driven with low-pressure dry gas of 100 PSI (can be connected to gas use off liquid source) • Special Order - 5 week lead time • Fills CO2 extinguishers • Fills CO2 cylinders • 4 Fill adapters included • Complete with pump and hoses • Includes wall mounting bracket • Variable filling rate from 1 to 15 lbs. per minute (controlled by gas flow rate of 13 CFM) • Maximum outlet pressure: 1000 psi • Wide liquid carbon dioxide inlet pressure range of 175 to 800 PSI to match typical storage systems • Designed for long life and minimal maintenance • Oil-less design eliminates product contamination **NOTE: An inline air dryer is required to prevent components from freezing. Either Getz# 4G59453 must be purchased with this unit or a waiver signed if you will source the dryer elsewhere**	• Removes water from compressed air • Uses activated alumina desiccant • Dewpoint: -40F • Removes particulate down to 1 micron • Max oil content: .01mg per cubic meter at 70F • Operates at 10 to 122F and 58-145 PSI • Pre-filter and after-filter included • Self-cycling with automatic included • Self-cycling with automatic energy-saving mode • Inlet: 3/8NPT female • Outlet: 3/8NPT female • 115 Vac/single phase/60hz • Dimensions 19" x 12" x 39.5" • Weight 81 pounds
